# Highlights

### Sleek, elegant design
A sleek, elegant design look that complements home furnishings in any room.

### Compact and slim design
This design style emphasizes a slim, compact look that saves space and fits in anywhere.
### WideScreen Design
This wide screen design employs a wider aspect ratio to enable it to display more information.

### Wide viewing angle
A wide viewing angle provides the clearest display with little reflection from virtually any angle.

### sRGB ready

sRGB is an industry standard that ensures the best possible match between the colors displayed on your screen and those in your printouts.

### TV module
A television tuner built into a monitor to display television signals as well as computer data.

### AV device
Display signals from a rich variety of AV devices.

### Built-in speakers
A pair of high quality stereo speakers built into a display device. It can be visible front firing, or invisible down firing, top firing, rear firing, etc depending on model and design.

### Adjustable tilt
Adjustable tilt is backward and forward movement of a screen on its base to achieve custom positioning for an ideal viewing angle and more comfort for people who spend long hours working on the computer.

### Cable management

Cable management is an intimate design that maintains tidy workspace by organizing cables and wires required for the operation of a display device.
