## Complete care for a healthier mouth

Feel confident with 100% coverage

The DiamondClean Smart provides a deep clean for a whiter, healthier smile. High-performance brush heads let you focus on all areas of your oral health and our Smart Sensor technology gives you personalised feedback and coaching.

### Personalised in-app coaching to perfect brushing

- Smart guidance for gentle care
- Guides you and provides instant feedback as you brush
- Helps you improve your brushing technique
- Takes you back to any missed spots for 100% coverage
- Start taking better care of your trouble areas

### Optimise your brushing

- Automatically selects the best mode for you
- Make sure you're getting the most from your brush head
- Choose from 4 modes and 3 intensity settings
- Easy and stylish charging — home and away

### Premium performance

- All-in-One brush head for complete care
- Sonic brushing: the masterclass in effective cleaning

## Highlights

### Premium All-in-One brush head

Clean without compromise with the A3 Premium All-in-One brush head. Our all-time best has angled bristles to help remove up to 20x more plaque even in hard-to-reach areas\*. Triangular tips work to remove up to 100% more stains in less than two days\*\*\*. And longer bristles clean deep for gums that are up to 15x healthier in just two weeks\*\*. All of that without ever switching brush heads. Did you know: brush heads become less effective after 3 months of use? Our BrushSync feature can remind you when it's almost time for a replacement.

### Trusted sonic brushing

Brush away plaque with sonic technology – our benchmark in effective and gentle cleaning. While you brush, up to 62,000 bristle movements and dynamic fluid action help the bristles clean even hard-to-reach areas, leaving your mouth feeling exceptionally fresh and clean.

### 4 modes, 3 intensity settings

With DiamondClean Smart you get the full works. Our 3 intensity settings let you boost your clean and our 4 modes cover all your brushing needs; Clean mode for exceptional daily cleaning, White+ to remove stains, Deep Clean+ for an invigorating deep clean, and Gum Health to gently clean along your gum line.

### Guides you and provides instant feedback

The Philips Sonicare app lets you know when you've achieved a thorough clean and coaches you to be a better, more mindful brusher.

### TouchUp feature

If you happen to miss a spot while brushing your teeth, your app's TouchUp feature will show you. You can then go back for a second pass, and be confident you are getting a complete clean, every time.

### Focus areas and goal-setting

Any trouble areas your dentist has pointed out? We'll highlight them on your in-app 3D mouth map and remind you to pay extra attention to these areas.

### Easy does it

With an electric toothbrush, it's best to let the brush do the work. We've built a sensor into the handle that works with our app to help you reduce excess scrubbing. This way, you can improve your technique and get a gentler, more effective clean.

### Too much pressure?

You might not notice when you brush too hard, but your DiamondClean Smart will. If you use too much pressure, the light ring on the end of your handle will flash. This is a gentle reminder to ease off the pressure and let your brush head do the work. 7 out of 10 people found that this feature helped them to become a better brusher.

## Highlights

### BrushSync mode pairing

You'll always get the best possible clean with our BrushSync mode-pairing feature. Smart brush heads ensure that you're using the right mode and intensity for the best possible clean by selecting the optimal brushing mode and intensity level in combination with your brush head.

### Smart replacement reminders

Brush heads wear out over time and become less effective at removing plaque. With smart brush head recognition you'll never lose track of when to replace your brush head. Your toothbrush tracks how long and hard you've brushed with each brush head, and will alert you when it's time to replace. You can also monitor the lifetime of your brush heads in the Philips Sonicare app, and even order replacements so you're never caught short.

### Designed with storage in mind

You'll enjoy two weeks of regular use from a single full charge. However, if you run low while travelling, your deluxe USB travel case doubles as a charger. Place your toothbrush in the case and either connect it to your laptop or a wall socket. As for charging at home, simply place your brush in your sleek charger glass—it fits stylishly into your bathroom and also doubles as a rinsing glass.
