Advanced design at outstanding value

Philips Digital Hospitality LCD TV

With this modern and energy efficient HD ready Hospitality TV, you will enjoy the benefits of digital television and be fully prepared for the future. Your guests will enjoy a warm welcome and great viewing experience.

Best total cost of ownership

- SmartLoader for fast cloning
- Installation menu locking
- VESA mounting compatible

Sustainable and safe

- Green logo for low power consumption
- Eco-friendly design and flame-retardant housing

Advanced hotel features and future proof

- Welcome message on screen display
- Integrated DVB-T tuner for digital TV and Radio

Great viewing experience and guest comfort

- Incredible Surround™ for enhanced audio enjoyment
- Swivel stand with anti-theft provision
- Pixel Plus HD for better details, depth and clarity

PHILIPS

Highlights

Welcome message

A welcome greeting is displayed each time the TV set is switched on.

Integrated DVB-T tuner

The integrated DVB-T tuner lets you receive Digital Terrestrial TV channels, next to the existing analogue channels. It also allows guests to listen to digital radio stations in high quality sound without the extra investment in radio receivers.

Pixel Plus HD

Pixel Plus HD is a picture processing technology that enables viewers to watch content that is vivid, natural and real. The results are superbly life-like pictures with incredible details and depth from any HD source.

Incredible Surround™

Incredible Surround™ is an audio processing technology that expands the virtual distance

between the two speakers and creates a more immersive experience. Incredible Surround™ allows your guest to enjoy total surround with greater depth and width of sound, without the use of additional speakers.

Swivel stand

This LCD TV comes with a swivel stand that allows your guests to adjust the TV so that they can watch TV from any position in the room. The stand can be secured to a table or furniture to provide additional security against theft.

SmartLoader

Provides the ability to copy TV settings and analogue channel programming from one TV set to other TV sets in less than a minute. The feature ensures uniformity between TV sets and significantly reduces installation time and costs.

Installation menu locking

Prevents unauthorised access to installation and configuration settings, to ensure maximum guest convenience and avoid unnecessary reprogramming costs.

VESA mounting

A unified industry standard for wall/ceiling mounting equipment set by the Video Electronics Standards Association. This offers a

great flexibility in mounting possibilities and a wide choice of mounting brackets.

Green Logo

Philips awards the Green logo to our most environmentally friendly and safe products, so that you can rest assured that you are making the right environmental choice. The hardware of this Hospitality TV is based on a consumer TV model, which has been certified by external auditors to be (more than) at least 10% more energy efficient than other products on the market in that product category. Better energy efficiency not only reduces environmental impact but also lowers operating costs (see www.philips.com/sustainability)

Eco-friendly design

Sustainability is integral to the way Philips does business. Philips TVs are designed and produced according to our EcoDesign principles aimed at minimising overall environmental impact, through lower power consumption, removal of hazardous substances, lower weight, more efficient packaging and better recyclability. Philips TVs also have a special housing of flame-retardant material. Independent tests carried out by emergency fire services have shown that whereas TVs can sometimes intensify fires caused by external sources, Philips TVs will not contribute to a fire.

Specifications

Picture/Display

- Aspect ratio: 16:9, Widescreen
- Diagonal screen size (inch): 32 inch
- Diagonal screen size (metric): 81 cm
- Panel resolution: 1366 x 768p
