Your entertainment. Taken care of beautifully.

- Supports all major HDR formats
- Easily connect to smart home networks and voice assistants.
- Compatible with Matter and Control4.
- Philips Wireless Home System powered by DTS Play-Fi.

PHILIPS

4K Ambilight TV
164 cm (65") Ambilight TV Sound by Bowers & Wilkins, P5 AI picture engine, Google TV™

Highlights

Ambilight TV

With four-sided Ambilight, sports, films, music and games will feel bigger than ever. Integrated LED lights at the back react to what you watch or listen to, immersing you in a halo of colourful light that emanates from the top, bottom and sides of the TV. For the full impact, hang your Ambilight TV on the wall.

Sound by Bowers & Wilkins

A slim, integrated sound system from Bowers & Wilkins creates an extra-wide soundstage for incredible immersion. Nine front-firing drivers and a dedicated centre channel direct detailed sound with clear dialogue directly towards you. A rear-mounted subwoofer provides deep, accurate bass.

P5 AI perfect picture engine

Enjoy a picture so real it feels like you could step straight into it! Our P5 AI chip gets the most out of this bright OLED+ TV and effortlessly compensates for any changes to ambient lighting. Whatever's on screen—from a bright football pitch to a dark sci-fi drama—you get lifelike definition and contrast, vibrant colours, smooth motion and incredible details.

Google TV™

What do you want to watch? Google TV brings together films, shows and more from across

your apps and subscriptions, and organises them just for you. You'll get suggestions based on what you like, and you can even use the Google TV app on your phone to curate your watchlist on the go.

Epic gaming

Play without limits and immerse yourself in OLED's incredible realism! HDMI 2.1, a blazing-fast 120 Hz native refresh rate and ultra-low input lag bring fluid, responsive gameplay, super-smooth natural motion and great-looking graphics. Ambilight's gaming mode brings even bigger thrills and, if you're gaming on a PC, you can enjoy 144 Hz VRR via HDMI.

Sustainable materials

The integrated Bowers & Wilkins sound system looks chic, and 4-sided Ambilight creates mesmerising mood lighting when the screen is off. The slender TV remote is made from recycled plastic, recharges wirelessly and has motion-activated backlighting. Our packaging uses FSC-certified recycled cardboard, and the inserts are printed on recycled paper.

Dolby Vision & Dolby Atmos

With Dolby Vision and Dolby Atmos on board, your films, shows and games look and sound incredible. See the picture the director wanted

65OLED909/12

you to see. No more disappointing scenes that are too dark to make out! Hear every word clearly. Experience sound effects like they're really happening around you.

IMAX Enhanced

Welcome to Hollywood! Your Philips OLED TV lets you experience the full impact of films originally made to play in IMAX cinemas. Be immersed in a far greater sense of scale. See more in every scene. Combined with Ambilight, you're in for a film night to remember.

Seamless control

Seamless compatibility with Matter and Control4 means you can easily integrate this 4K Ambilight TV into your existing smart home network. You can also use the TV remote to control your satellite or cable box, or wake the Google Assistant* — and the TV is compatible with Alexa-enabled devices too.
