Take control

Powered by CMND

Show more with a budget-friendly standalone professional TV. The intuitive CMND solution makes it simple to deploy and manage connected displays. Benefit from simple, fast installation and an on-screen welcome page that's easy to program.

Cost-effective solution
- 3 years warranty, extendable to 5 years
- Multilingual customer support
- Low power consumption for long battery life
- Translucent backcover to uncover hidden materials

Simple set up. ADVANCED performance
- Instant initial USB cloning. Rapidly configure Pro TVs
- MyChoice compatible. Built-in pay-to-view solution
- Mixed channel map to combine analogue and digital channels
- CMND and Control: effortless maintenance of your TVs
- Be seen. Brand the TV's UI with your logo

PHILIPS

Highlights

CMND&Control

CMND and Control allows for remote configuration and installation of your TVs from a central location, without the need to visit any rooms. Update and manage all your displays, with minimal effort, all without having to disturb your guests.

Built-in pay-to-view solution

Offer pay-to-view content in any situation-from a complete pay-to-access-all-channels model to selected premium content. MyChoice is an integrated solution that allows viewers to access pay-per-view channels via a code or a card.

UI branding

Your Philips Professional TV offers a clear, easy-to-navigate user interface (UI), which you can customize with your own branding. Easily add your logo or custom background to the menu to increase the visibility of your brand.

Mixed channel map

One integrated channel list for digital and analogue channels. This allows the guest to flick seamlessly between Analogue and Digital channels.

3 years warranty

3 years warranty, extendable to 5 years

Multilingual customer support

Multilingual customer support

Translucent backcover

Translucent backcover will uncover hidden materials within the TV set. Ideally suited for installations within prisons and detention centers.

Low power consumption

Thanks to its simple clock and alarm functions, and the auto-off LED backlight, power consumption is low. A single AA battery is all that is required to power the clock for about a year.

Instant initial USB cloning.

Provides the ability to easily copy all programming and channel programming settings from one TV into other TV sets in less than a minute. The feature ensures uniformity between TV sets and significantly reduces installation time and costs.

Extended
Lifetime

Specifications

Picture/Display
