Improves patients' oral health

- Improves gum health up to 100%*
- Fillings, crowns, or sensitive areas? Not to worry.

Designed around your patient

- A great way to get used to your new toothbrush
- Encouragement to brush thoroughly

Highlights

Improves gum health

Densely packed, high-quality bristles give you an extra gentle brushing to remove plaque along the gum line to improve gum health up to 100% more than a manual toothbrush. And the specially curved power tip makes reaching the teeth at the back of your mouth a breeze.

Too much pressure?

Patients may not notice if they are brushing too hard, but their toothbrush will. If patients start taking it out on their gums, the toothbrush will make a pulsing sound as a reminder to ease off on the pressure.

Safe and gentle

You can be sure of a safe brushing experience: our sonic technology is suitable for use with braces, fillings, crowns and veneers, and helps prevent cavities and improve gum health.

Philips Sonicare technology

Philips Sonicare's advanced sonic technology pulses water between your teeth, and its brush strokes break plaque up and sweep it away for an exceptional daily clean.

Smart replacement reminders

All brush heads wear out over time. But we've got that covered too: our smart brush-recognition technology tracks how long patients have been using their brush head for and how hard they've been brushing. When it's time to replace it, a light on the handle lets them know. That way, they can be sure that their brush head is consistently doing a stellar job.

BrushSync technology

A microchip-enabled technology that detects and synchronises the smart brush head with the smart handle. The smart handle and smart brush head pair is a powerful combination that enables Smart replacement reminders.

Helpful timers

Our QuadPacer lets patients know when they've spent just the right amount of time cleaning each part of their mouth, while our Smartimer tells them when they've brushed for the recommended two minutes.

Easy-start programme

Starting something new can take getting used to. That's why our easy-start programme gives you the option of a gradual, gentle increase in brushing power the first 14 times you use your new toothbrush.

Specifications

Power

Voltage: 110–220 V

Technical specifications

Operating time (full to empty): Up to 2 weeks

Battery: Rechargeable

Battery type: Lithium ION

Design and finishing

Colour: Mid-Blue

Service

Warranty: 2-year limited warranty

Ease of use

Handle compatibility: Easy click-on brush heads
