Contours to your teeth and gums for a deeper clean

Up to 10 x more plaque removal*

Get a clean as unique as your smile. Our C3 Premium Plaque Control adapts to the contours of your teeth and gums thanks to soft, flexing sides that give you 4 x more surface contact than a regular brush head** for a comfortable, deep clean.

Innovative technology

- Philips Sonicare's advanced sonic technology
- Automatically selects optimal mode for ultimate results***
- Tested to meet your oral health needs

Designed to optimise performance

- Always know when to replace. Always get an effective clean.
- Click-on design for simple brush head placement

Philips Sonicare's deep clean

- Up to 4 x more surface contact** for an effortless deep clean

For exceptional gum care

- Up to 7 x healthier gums in just 2 weeks***

For exceptional plaque removal

- Up to 10 x more plaque removal than a manual toothbrush

Highlights

Focus on gum health

With the Philips Sonicare Premium Gum Care brush head, even the deepest clean is gentle. As your toothbrush moves along the gum line, Premium Gum Care's flexible sides and bristles absorb any excess pressure so your gums are protected, even if you brush too hard. Bristles work hard to remove plaque and bacteria along the gum line, helping to improve gum health. Thanks to this brush head's curved design, you can be sure of maximised bristle contact.

Say goodbye to plaque

Thanks to its flexible design, it removes up to 10x more plaque from hard-to-reach areas* for a truly deep clean along the gum line and between teeth.

Brush head replacement cues

Brush heads become less effective after 3 months' use, but with BrushSync™ you'll be reminded before this happens. Your smart toothbrush will track how often and how hard you brush and will notify you when it's time for

a replacement. Don't have a smart Philips Sonicare toothbrush? Just monitor your blue replacement bristles — when they turn white you'll know it's time for a fresh brush head.

Adaptive cleaning technology

You get a personalised clean every time you brush with our adaptive cleaning technology. Soft rubber sides flex to let C3 Premium Plaque Control adapt to the shape of your teeth and gums, absorbing any excess brushing pressure and enhancing our sonic cleaning power. Bristles can then adjust to the shape of your teeth and gums so you get up to 4 x more surface contact than a regular brush head** for deeper cleaning in hard-to-reach areas.

Philips Sonicare technology

Philips Sonicare's advanced sonic technology pulses water between your teeth, and its brush strokes break plaque up and sweep it away for an exceptional daily clean.

Easy to click on

Your C3 Premium Plaque Control brush head fits perfectly with any Philips Sonicare toothbrush handle, except Philips One and Essence. Simply click on and off for easy replacement and cleaning.

BrushSync™ mode-pairing

You'll always get the best possible clean with our BrushSync™ mode-pairing feature***. The Philips Sonicare C3 Premium Plaque Control brush head syncs with your BrushSync™-enabled Philips Sonicare toothbrush handle***, selecting the optimal brushing mode and intensity level for exceptional cleaning. All you need to do is start brushing.

Say goodbye to plaque

Thanks to its flexible design, Premium Gum Care removes up to 10 x more plaque than a manual toothbrush. It moves to enhance our unique Philips Sonicare cleaning technology so that however you brush, you get an exceptional clean you can see and feel.
