

Philips
Soundbar Home theater

HSB3280

Bring your gaming experience to life

with wireless subwoofer

The Philips SoundBar HSB3280 gives you powerful audio effects that your flat TV cannot deliver. The 1-piece integrated system with a wireless subwoofer requires no additional speakers or unruly wires for a truly immersive gaming experience.

Great listening experience

- Dolby Virtual Speaker for realistic surround sound
- Subwoofer for powerful bass

Connect and enjoy all your entertainment

- MP3 Link plays music from portable media players
- USB Link plays photos and music from USB flash drives
- 300W RMS total output power

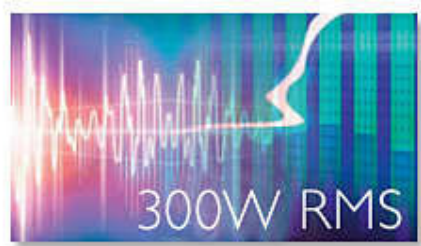

Designed to enhance your living space

- Flexible placement on the wall or tabletop
- Wireless subwoofer for incredible bass without the wires
- SoundBar design best fitting a 81 cm (32") flat TV or larger

PHILIPS

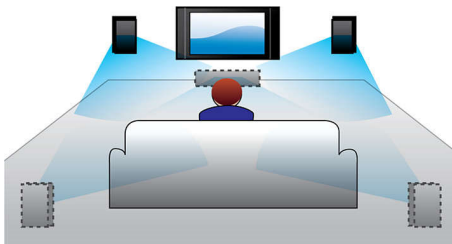

Highlights

300W RMS total output power

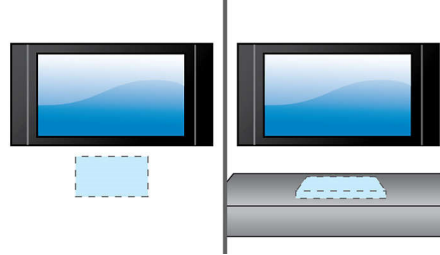

300W RMS total output power

Dolby Virtual Speaker

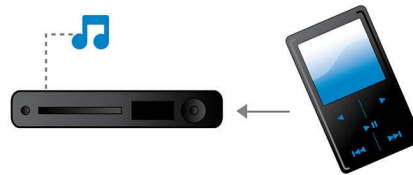

Dolby Virtual Speaker is a sophisticated audio virtualization technology that produces rich and immersive surround sound from a two-speaker system. Highly advanced spatial algorithms faithfully replicate the sonic characteristics that occur in an ideal 5.1-channel environment. DVD playback is enhanced by expanding the 2-channel environment. When combined with Dolby Pro Logic II processing, any high quality stereo source is transformed into true-to-life, multi-channel surround sound. No need to purchase extra speakers, wires or speaker stands to appreciate room-filling sound.

Flexible placement

Flexible placement on the wall or tabletop

MP3 Link

MP3 Link allows playback of MP3 files, directly from your portable media player, on your home theater system. Simply connect your portable MP3 player to the built-in MP3 Link jack and enjoy your MP3 music in the superior sound quality delivered by the Philips home theatre system. MP3 Link brings your portable music into the comfort of your living room.

SoundBar design

The SoundBar home cinema speaker lends an air of sophistication and grace to any living

room. Though it is designed to fit a flat TV with a 81 cm (32") screen or larger, it will also sit under any other flat TV like a companion - matching all your interior and your lifestyle.

Subwoofer for powerful bass

USB Link

The Universal Serial Bus or USB is a protocol standard that is conveniently used to link PCs, peripherals and consumer electronic equipment. With USB Link, all you have to do is plug in your USB device, select the photo or music, and play away.
