- MP3 Link plays music from portable media players
- Easily connect your TV via a single HDMI cable
- Sharper high definition pictures with HDMI 1080p
- Hi-Speed USB 2.0 Link plays music from USB flash drives

PHILIPS

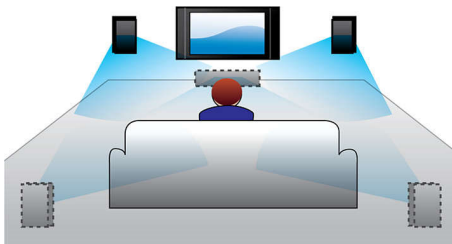

Highlights

Super slim speakers

Super Slim Speakers deliver an uncompromised surround sound experience in a slim and elegant design. Silk-soft dome tweeters incorporating a powerful Neodymium magnet system perfectly capture the mid and high frequencies without any loss of details from movie or music sources. The result is superbly clear, true-to-life sound, just like the artiste intended.

Dolby Virtual Speaker

Dolby Virtual Speaker is a sophisticated audio virtualization technology that produces rich and immersive surround sound from a two-speaker system. Highly advanced spatial algorithms faithfully replicate the sonic characteristics that occur in an ideal 5.1-channel environment. DVD playback is enhanced by expanding the 2-channel environment. When combined with Dolby Pro Logic II processing, any high quality stereo source is transformed into true-to-life, multi-channel surround sound. No need to purchase extra speakers, wires or speaker stands to appreciate room-filling sound.

300W RMS power

300W RMS power delivers great sound for movies and music

Super slim SoundBar design

Wireless subwoofer

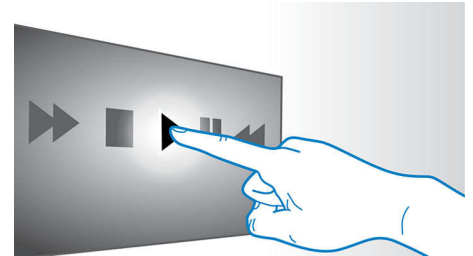

Wireless subwoofer for incredible bass without the wires

SoundBar design

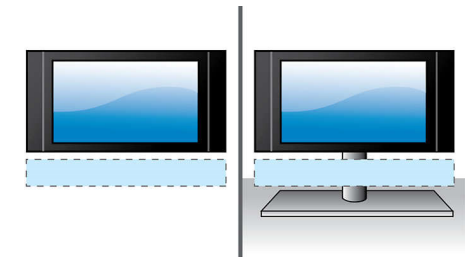

The SoundBar home cinema speaker lends an air of sophistication and grace to any living room. Though it is designed to fit a flat TV with a 81 cm (32") screen or larger, it will also sit under any other flat TV like a companion - matching all your interior and your lifestyle.

Touch panel for playback

Intuitive touch panel controls allows you to control the volume as well as other playback options by simply pressing the touch sensitive controls on the front panel.

Flexible placement

Enjoy the versatility of this home theater system that allows you to place it where you will. Whether on a TV stand, on a table or mounted on a wall, the product looks sensational and functions without compromise. For once, you get to control how your home looks without giving up an incredible home theater experience.
