HTS6120

Superior surround sound without the clutter

for cinematic experience

Enjoy superior surround sound in any sort of room, in any sitting position. Using Philips' Ambisound technology, with precisely angled speakers and unique sound processing, this SoundBar gives you an exhilarating cinema experience at home.

Designed to enhance your living space

- Sophisticated design that matches any flat TV
- Elegant sliding door in glass

Connect and enjoy all your entertainment

- EasyLink to control all HDMI CEC devices via a single remote
- Enjoy all your movies and music from CD and DVD
- Optional dock for convenient playback from your iPod

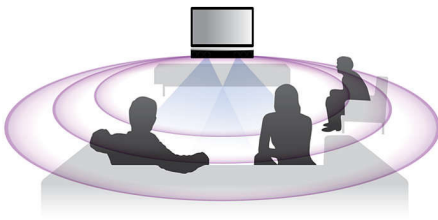

Superior listening experience

- Fullsound™ to bring your MP3 music to life
- DoubleBASS technology for fuller and deeper bass
- Ambisound technology for surround sound from fewer speakers

PHILIPS

Highlights

Ambisound technology

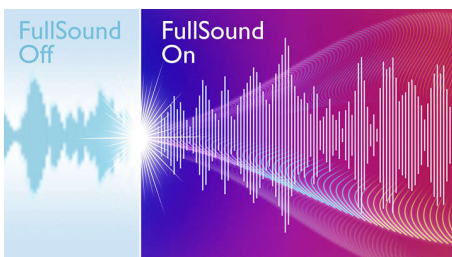

Ambisound technology produces truly embracing multi-channel surround sound from fewer speakers. It delivers an immersive 5.1 sound experience without the constraints of sitting position, room shape or size, and without the clutter of multiple speakers and cables. Through the combined effect of psychoacoustic phenomena, array processing and precisely angled driver positioning, Ambisound delivers more sound from fewer speakers.

DoubleBASS technology

DoubleBASS ensures you hear even the deepest bass tones from compact-sized subwoofers. It captures low frequencies and recreates them in the audible range of the subwoofer - delivering sound with more boom and panache, and ensuring you a full, uncompromised listening experience.

FullSound™

Philips' innovative FullSound technology faithfully restores sonic details to compressed

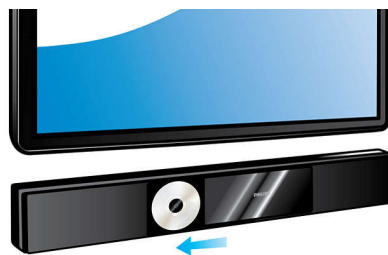

MP3 music, dramatically enriching and enhancing it, so you can experience CD music without any distortion. Based on an audio post-processing algorithm, FullSound combines Philips' renowned expertise in music reproduction with the power of the latest generation Digital Signal Processor (DSP). The result is fuller bass with more depth and impact, boosted voice and instrument clarity, and rich detail. Rediscover your compressed MP3 music in true-to-life sound that will touch your soul and move your feet.

Sophisticated design

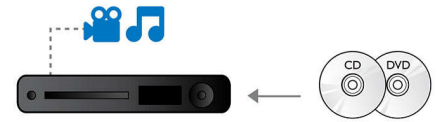

Top-of-the-line technology wrapped in elegance and style, this home theater system graces the front of any living room with tones of sophistication and class. Reflecting the exact same design and finishing as the Philips flat TV, it also sits under any other flat TV like a companion - matching your flat TV, your interior and your lifestyle.

Elegant sliding door

Elegant sliding door in glass

Enjoy movies and music

Enjoy all your movies and music from CD and DVD

EasyLink

EasyLink lets you control multiple devices like DVD players, Blu-ray players, soundbar speaker, Home theater and TV's etc. with one remote. It uses HDMI CEC industry-standard protocol to share functionality between devices through the HDMI cable. With one touch of a button, you can operate all your connected HDMI CEC enabled equipment simultaneously. Functions like standby and play can now be carried out with absolute ease.

Optional dock

Attach this dock to your home theater system and you can enjoy your music, videos and pictures from your iPod devices. Dock is sold as an optional accessory.
