- Optional dock for convenient playback from your iPod/iPhone

Superior listening experience

- Dolby Virtual Speaker for realistic surround sound
- 350W RMS power delivers great sound for movies and music
- Crystal Clear Sound for superbly clear and detailed sound

PHILIPS

Highlights

Crystal Clear Sound

With Philips' Crystal Clear Sound, you will now be able to discern and appreciate every sound detail, the way it's meant to be heard and as the artist or director intended! Crystal Clear Sound reproduces the sound source - whether it's an action movie, a musical or a live performance - faithfully, precisely and without any distortion. Philips home theaters with Crystal Clear Sound keep audio processing to a minimum, preserving the purity of the original audio content. The result is greater sonic accuracy delivered to your ears.

Dolby Virtual Speaker

Dolby Virtual Speaker is a sophisticated audio virtualization technology that produces rich and immersive surround sound from a two-speaker system. Highly advanced spatial algorithms faithfully replicate the sonic characteristics that occur in an ideal 5.1-channel environment. DVD playback is enhanced by expanding the 2-channel environment. When combined with Dolby Pro Logic II processing, any high quality stereo source is transformed into true-to-life, multi-channel surround sound. No need to purchase extra speakers, wires or speaker stands to appreciate room-filling sound.

350W RMS power

350W RMS power delivers great sound for movies and music

Stylish design

Stylish design with glass panels

Compact design

Compact design that fits with your flat TV

Flexible placement

Enjoy the versatility of this home theater system that allows you to place it where you will. Whether on a TV stand, on a table or

mounted on a wall, the product looks sensational and functions without compromise. For once, you get to control how your home looks without giving up an incredible home theater experience.

Hi-Speed USB 2.0 Link

The Universal Serial Bus or USB is a protocol standard that is conveniently used to link PCs, peripherals and consumer electronic equipment. Hi-Speed USB devices have a data transfer rate of up to 480 Mbps - up from the 12 Mbps in original USB ones. With Hi-Speed USB 2.0 Link, all you have to do is plug in your USB device, select the movie, music or photo and play away.

MP3 Link

MP3 Link allows playback of MP3 files, directly from your portable media player, on your home theater system. Simply connect your portable MP3 player to the built-in MP3 Link jack and enjoy your MP3 music in the superior sound quality delivered by the Philips home theatre system. MP3 Link brings your portable music into the comfort of your living room.
