

PHILIPS

Pressure Guide Wire

Verrata Plus

The wire you choose, the technology you can trust

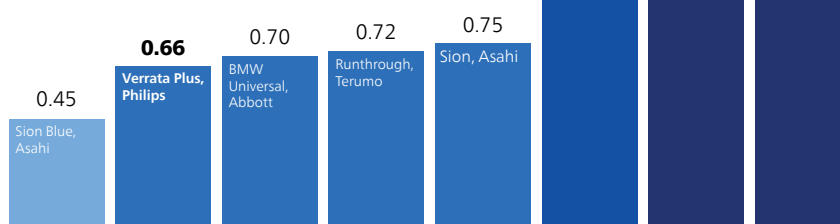

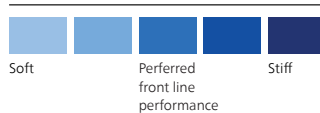

For over 20 years Philips has led the way in physiology, putting patients first through continuous innovation

Introducing our 10th generation physiology wire: Verrata Plus

- **New** in-line clip connector for improved work flow
- **New** high fidelity sensor for reliable pressure measurement
- Familiar frontline tip
- Seamlessly switch between FFR and iFR, the only resting index with over 9,000 patients studied

Tip load (grams), n=5

*Tip load, mean values, n=5 of each wire, data on file at Philips.

Reliably connect and disconnect with confidence

Robust proximal wire design

- Resists kinks
- Repels moisture

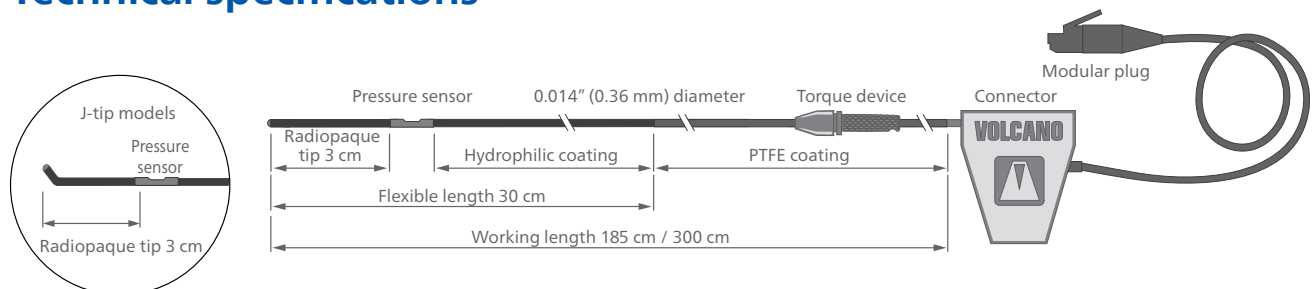

Verrata plus clip connector

- Multiple back up contact points
- Allows free wire rotation when connected
