- Paddle straightening brush for naturally straight look
- Volumizer for more volume at the roots
- 5 attachments

Less Hair Damage
- Less overheating with Even Heat Distribution technology

Care and protect
- Care setting for better protection while drying and styling
- Argan-oil infused ceramic plates for smooth gliding
- Cool air setting for gentle drying
- 4x more ionic care*

Highlights

Even Heat Distribution

The Even Heat Distribution technology provides maximum protection for your hair from overheating and thus helps to keep it healthy-looking and shiny.

4x more ionic care*

This airstyler gives your hair instant care with ionic conditoning. Charged negative ions eliminate static, condition the hair and smooth down the cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

Three flexible settings

Enjoy the combined three heat and two speed settings which will create the perfect end result. You can choose between a low and high speed setting with 3 corresponding heat settings; Cool, Care and High. The flexible settings ensure a powerful airflow with a caring temperature for a precise and tailored styling.
Care setting

The 'Care' setting ensures the optimum drying temperature and guards against overheating. Hair still dries fast, with the same powerful airflow but at a constant, caring temperature.

Cool air setting

The Cool air setting uses low heat to gently dry your hair. It works especially well with fine, dry or damaged hair.

Argan-oil infused plates

The straightener uses ceramic plates infused with argan oil to make styling fast and effortless, with a gliding action that feels as silky smooth as your hair looks.
Retractable bristle brush

The 30 mm brush with retractable bristles is designed for the easy styling. Turn the tip of the brush and slide it out for defined waves.

38 mm ThermoBrush

The ThermoBrush has an extra wide diameter of 38 mm. The width of the barrel makes it the perfect styling tool for creating smooth styles and waves.

Narrow concentrator

Use the narrow concentrator for the focused airflow for precise styling or touch-ups.

Highlights

Paddle straightening brush

The paddle-shaped straightening brush is designed to help you create naturally straight look in one go.

Volumizer

Create the volume at the roots with a specially designed volumizer attachment.

Variety of styles and volume

This Air Styler features 5 attachments to create different styles - from naturally straight look, to defined waves and volume at the roots.
