Amazing images

- Advanced Picture Corrections
- True HD 720 p
- Advanced LED Light Source

Connectivity

- stereo sound projector
- Smart OS for apps and more
- Wi-Fi screen mirroring

Highlights

Advanced Picture Corrections

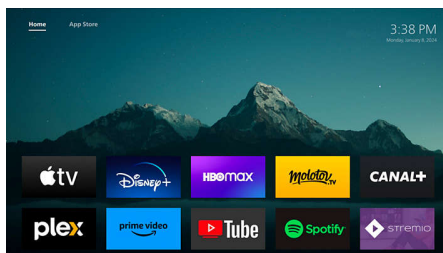

Auto-keystone and 4 corner correction help eliminate crooked, distorted images for a perfectly proportioned picture even if the device is not straight in front of the wall. Focus technology and digital zoom allow you to fine-tune pictures to your needs and place your projector at any distance.

stereo sound projector

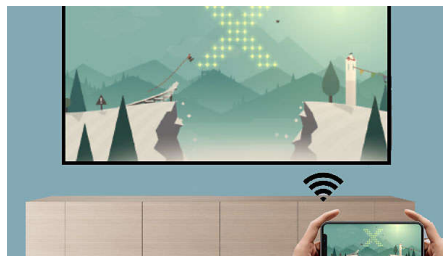

Thanks to its stereo audio system (two speakers), immerse yourself in an exceptional sound. Need a bigger sound? The 3.5 mm jack output is there to connect your earphones or external speakers.

Smart OS for apps and more

Take full advantage of endless entertainment directly out of the box with all of your favourite pre-installed apps.

Wi-Fi screen mirroring

Connect your mobile devices wirelessly to mirror and share your local content on tablets, smartphones or even computers. Videos on your phones? No worries just send them through Wi-Fi! (iOS, LuminOS, Mac and PC).

True HD 720 p

Watch movies and more in True HD 720p high-definition sharpness, with all of the fine details that can be lost at lower resolutions. The picture remains lifelike and text is crystal clear when displayed.

Advanced LED Light Source

The high-quality LED light system delivers rich, vivid colours and lasts up to 30,000 hours. With an average use of 4 hours per day, it will last for 20 years! Energy consumption is also much lower than a regular lamp projector, meaning that you get a bigger screen and a fully immersive cinema experience, all from an eco-friendly device!

Specifications

Technology

Projection image size: up to 177 cm (70")

Connection

HDMI: x 1

USB: x 1

SPDIF

Sound

Surround mode, Equalisation

Dimensions

Weight: 1.5 kg

unpacked (W x D x H): 141 x 123 x 162 mm
