Soothing newborns from day 1

Little and light for a fit that's just right

Peace of mind from soothing your newborn from day one. The Philips Avent ultra start soother is made to fit your newborn's little mouth and can be safely used until they're six months old. No matter who's taking care of baby, comfort and relief are close by!

Made for your little one

- Optimal for healthy oral development
- 98% teat acceptance*
- Teat made from food-grade silicone
- Lightweight soother for newborns, safe to use until 6 months

Highlights

Extra little and light

Our newborn soother is specially designed to fit tiny mouths and faces. Its lightweight, ringless design makes it an ideal first soother, and it's suitable for babies up to 6 months old. The teat shape and size help your baby transition easily to our Philips Avent ultra air and ultra soft soother ranges, so their natural suckling needs are always met.

98% teat acceptance

When we asked parents how their little ones respond to our textured silicone teats, an average of 98% said that their baby accepts Philips Avent ultra soothers.

Orthodontic teat

Our orthodontic, symmetrical, soft silicone teats are designed for natural oral development.

100% silicone teat

We consciously use only silicone for our Philips Avent soother teats. The silicone is 100% food-grade, and free from BPA, BPS, Phthalate, PVC and Polycyclic aromatic hydrocarbons.
