Highlights

W2 Optimal White Brush Head

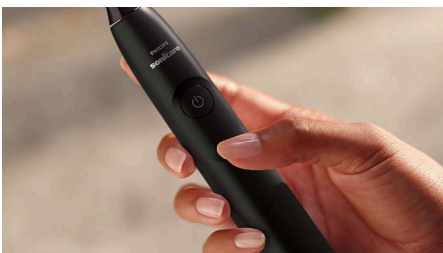

The Philips Sonicare 5300 goes beyond deep cleaning to effortlessly remove surface stains for a radiant, whiter smile. With the W2 Optimal White brush head, it's easy to maintain brightness between professional whitening treatments, while removing up to 7 x more plaque vs. a manual toothbrush.

Next-Gen Sonicare technology

Enjoy a delightful brushing experience and new level of oral care with Next-Generation Sonicare technology. While you brush, the toothbrush's innovative magnetic system adjusts the brushing power during each cleaning session, delivering optimal performance of 62,000 bristle movements per minute, even in hard-to-reach areas. Meanwhile, dynamic fluid action supports the bristles to clean plaque, helping you achieve a complete clean every time you brush.

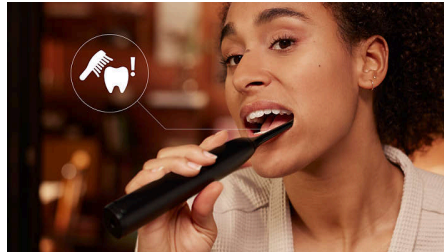

2 intensity levels

To help you take the best care of your teeth and gums, the Philips Sonicare 5300 has a choice of 2 intensity levels. Whether you prefer a boost of

cleaning power with the high setting or a gentle yet thorough clean with the low setting, this toothbrush has you covered.

Built-in pressure alert

You may not notice when you're brushing too hard, but this toothbrush will. The smart optic sensor precisely detects excessive brushing pressure and lets you know with a pulsing sound while reducing vibration. You'll always know when to adjust your brushing and your gums will stay protected.

BrushSync replacement reminder

Replacing your brush head regularly is an important part of maintaining good oral health. With BrushSync technology, it's easy to keep your brush head performing at its best. By tracking your usage frequency and brushing intensity, the innovative technology then reminds you when it's time for a new brush head.

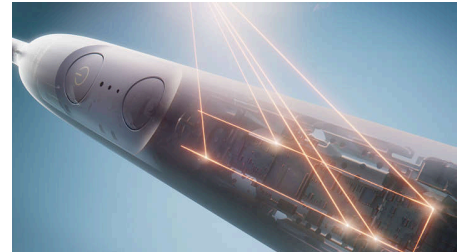

2-minute timer and brushing pacer

Two minutes is all you need for a complete clean, so our SmarTimer lets you know when time's up. For an even clean throughout your mouth, the BrushPacer divides your session into segments,

with a slight pause in vibration being your sign to move on. This supports you in achieving an even clean every time you brush.

Designed to last

We've re-designed our Philips Sonicare electric toothbrushes from the inside out to be strong, lightweight and long-lasting. Thanks to our advanced laser-welding process, our toothbrushes are designed to brush with you for years to come.

Up to 3 weeks between charges

This toothbrush uses a high-performance battery that is engineered to enhance your brushing experience. With a single charge, you can enjoy up to three weeks of regular brushing before needing to recharge it.

Compact travel case

Our redesigned travel case is compact enough to slip into a bag and strong enough to keep your Philips Sonicare toothbrush protected along the way. Not only does it keep your toothbrush protected, but it also conveniently holds two brush heads. Now you can travel confidently wherever your journey takes you.
