

Affiniti Ultrasound System

Affiniti 30

The Affiniti 30 ultrasound systems deliver innovation that responds to the needs of a busy ultrasound department, supporting confident results, every day. Engineered for efficiency and reliability and powered by Philips proven performance, Affiniti gets diagnostic images, quickly – even on the most technically difficult patients.

The Affiniti 30 feature a re-architected system design that provides reduction in power consumption.

Our EcoPassport

As a company committed to doing business sustainably, we are keen to help our customers make responsible choices. We offer solutions that improve people's health and well-being while reducing impact on the environment.

Our EcoPassports summarize the environmental benefits our products offer in one or more of our focal areas. For example, increased energy efficiency, more sustainable packaging, or a circular-ready product design; optimized for repair, refurbishing and recycling.

In this way, we want to help ensure that each purchase decision is the right one for our customer's needs *and* the planet.
