## Soothing newborns from day 1

A fit that's just right, also at night

Peace of mind when soothing from day one. The Philips Avent ultra start Nighttime soother is made to fit your newborn's little mouth and can be safely used until they're six months old. With a glow-in-the-dark cap, it's also easy to find at night

### Convenient and safe

- Sterilise and store in one handy case

### Made for your little one

- Optimal for healthy oral development
- Lightweight soother for newborns, safe to use until 6 months
- 98% teat acceptance\*
- Teat made from food-grade silicone

### Your ally at night

- Glows in the dark long after lights-out
- Supports your newborn's sleep routine

## Highlights

### Extra little and light

Our newborn soother is specially designed to fit tiny mouths and faces. Its lightweight, ringless design makes it an ideal first soother, and it's suitable for babies up to 6 months old. The teat shape and size help your baby transition easily to our Philips Avent ultra air and ultra soft soother ranges, so their natural suckling needs are always met.

### 98% teat acceptance

When we asked parents how their little ones respond to our textured silicone teats, an average of 98% said that their baby accepts Philips Avent ultra soothers.

### Orthodontic teat

Our orthodontic, symmetrical, soft silicone teats are designed for natural oral development.

### 100% silicone teat

We consciously use only silicone for our Philips Avent soother teats. The silicone is 100% food-grade, and free from BPA, BPS, Phthalate, PVC and Polycyclic aromatic hydrocarbons.

### Supports sleep routine

8 out of 10 parents say that Philips Avent ultra soothers help their baby fall asleep\*\*

### Glows in the dark

The cap of the Philips Avent ultra start Nighttime soother gently glows in the dark. So it is easier to find your newborn baby's soother when the lights go out.

### Sterilise in 3 minutes

Philips Avent ultra start soothers come in a reusable carrying box that doubles as a steriliser. Just add some water and pop it in the microwave for three minutes. Easy, hygienic and ready for when your little one needs it.
