- Touch controls. Supports your favorite voice assistants
- Philips Headphones app. Customize your sound

Ready for everyday use

- IPX4 splash and sweat resistant
- Solid Bluetooth multipoint connection
- Connect to two Bluetooth devices at the same time
- Warm, natural sound. Philips sound signature

PHILIPS

Highlights

Ultra-tiny earbuds

Our smallest true wireless earbuds ever boast a low-profile design that fits great—and feels great—even if you wear them all day. The buds sit in your outer ear so there's no ear tip burrowing into your ear canal: if you need a bit more grip there are three sizes of silicon sleeves (included) to choose from.

Great sound. Dynamic Bass

These true wireless earbuds might be small, but you won't need to turn up the volume to get the best sound out of their 10 mm drivers. Activate Dynamic Bass via the left earbud, or the Philips Headphones app, and you can enjoy the full power of your favorite basslines even if listening quietly.

Clear calls

Your voice will come through clearly when you're on a call. A dedicated mic picks up the sound of your voice while a noise reduction algorithm quietens some of the background noise from the world around you.

Up to 14 hrs (6 + 8)

You get 6 hours play time from a full charge, and an extra 8 hours from the tiny charging case. If

you need a quick boost, pop the earbuds back in the case for just 15 minutes and you'll get an extra hour. It takes 2 hours to recharge the earbuds fully, and the case can be charged via USB-C.

Sustainable materials

PCR material made from old bottles and other plastic waste has been used to construct these earbuds, and our packaging is plastic-free. We've also left out the USB-C cable to help reduce e-waste.

Simple control

Touch controls keep things simple, and helpful confirmation tones let you know you've activated a function. Siri and the Google Assistant are both supported, and you can connect to two devices at once. Great if you're streaming music from a phone and getting alerts from your smartwatch.

Philips Headphones app

You can use the Philips Headphones app to manage which devices you're connected to or find a missing earbud! You can also fine-tune your sound with the equalizer, turn touch

controls on or off, activate Dynamic Bass, and more.

IPX4 splash/sweat resistant

With an IPX4 rating, these true wireless earbuds are fully splash resistant. They won't mind a little sweat and you don't need to worry about getting caught in the rain. Plus, with the charging case small enough to carry on your keyring, you can take these mini marvels anywhere.

Solid Bluetooth connection

Advanced Bluetooth connectivity gives you a more stable connection for seamless streaming, and you can connect to two Bluetooth devices (iOS or Android) at the same time. Enjoy that playlist or listen uninterrupted to your favorite podcast without annoying dips in the sound.

Philips sound signature

Music to podcasts, you'll love what you hear! These true wireless earbuds feature large drivers, tuned to the Philips sound signature. Whatever you're into, you'll enjoy a warm, natural sound with deep bass.

Specifications

Sound

- Frequency range: 20-20,000 Hz
- Impedance: 16 Ohm
- Maximum power input: 10 mW
- Sensitivity: 94 dB (1 KHz, -10 dBFs)
