

## 8 Parental Supervision

### Kids Profile

A kids profile lets you give your children access to Google TV without the need to create an email address and password for them. With a kids profile, you can:

- A) Set a bedtime and daily limits:**  
Set a bedtime or a daily time limit for your child. Limits can only be set on Google TV (not through Family Link).
- B) Monitor app activity:**  
Monitor your child's app activity with Family Link.
- C) Add and manage apps:**  
Download apps for your child to access on their kids profile. You can block and unblock apps through Family Link. Parental controls on profile: restrict access for your child by adding a profile lock.
- D) Use the Google Play Family Library:**  
Give your child access to shared content in the Family Library.
- Note:**
  - A kids profile may not be available in some regions.
  - To monitor parental controls, use Family Link with your Android phone.
  - Not all of Family Link's parental controls are available for a kids profile.
  - Kids profile does not require a separate Google account or password.
  - Parents can create a kids profile for their child directly on Google TV.

### Parental Controls

You can restrict your children from watching certain programs or channels by setting parental controls using a rating lock.

The operation of setting parental controls is as follows:

1. Press **OK** button on your remote to open the Live TV Settings menu.
2. Using the remote, move the cursor to the Gear icon (**Channel Options**) and press **OK**.
3. Select Parental Control.
4. Enter your **PIN(\*)>Parental Control (On)>Ratings**.
5. Select the rating type as described in the table below and press **OK**.

- Note:**  
When the user uses the device for the first time, the user needs to customize the PIN password. To ensure security, it is recommended to change passwords regularly and ensure that the PIN is complex and confidential.

If you have forgotten the current 4-digit PIN code, you can reset the code by performing Factory data reset. **Program Restrictions** is displayed only when the last selected input is not HDMI.

	United States					United States (Film ratings)

Moves to select an item and to determine on the various menu.
- 10 (GUIDE)**  
See what's live on TV across different service providers in one menu.

## 2 Best Experience

### Set up with smartphone/tablet

You can quickly and easily set up your Google TV from Google Home app. You can download and launch Google Home app from your mobile. Setting up with Google Home app will allow you to wirelessly sync your Wi-Fi credentials, Google account, and Google TV compatible apps. During the initial setup, you will be prompted to set up your TV with Google Home app, select Yes, and follow the on-screen instructions.

### Select Google TV mode

There are several operation modes in your Philips Google TV. You can choose any mode based on your preferences. You can choose Google TV or Basic TV mode during initial setup.

### Google TV mode

You can enjoy full functionality of this TV in this mode. You can browse 700,000+ movies and TV episodes. Suggestions based on what you've watched and what interests you make it easier to find your next favorite. Also use your voice to find movies, stream apps, play music, and control the TV.

### Basic TV mode

If you only watch Live TV channels through the built-in tuner connected to a wall jack or via a cable/satellite box connected to HDMI and you do not plan to use the smart features of the television to add applications to stream content, this mode is best. You can still connect to the internet to use the pre-installed apps and to receive important TV firmware updates.

### Power on behavior

If you want to go to last input (ex. cable/satellite STB input) when powering on TV, go to **Settings > System > Power & Energy > Power on behavior** and change the setting from "Google TV home screen" to "Last used input".

### Internet connection

**Wired Connection:**

For the best experience, a wired connection is preferred. Connect an ethernet cable from your router or modem to the LAN port located on the back of your Philips Google TV.

### Multiple account

You can add more than one account on your Google TV so you can sign in to services with multiple accounts. Your media and activity can sync across devices that your Google Account is signed in to. To add multiple accounts, go to **Settings > Accounts & sign-in > Add an account**.

### Family link

You can create a family group with up to six family members and share and enjoy Google services (YouTube music, YouTube Premium etc.) together. To create family link, check following URL: <https://families.google.com/families>

## 3 Explore Your Google TV

Google TV is TV personalized for you. Easily browse content from across your favorite apps and services, with specially curated recommendations based on your interests.

\*Some countries home screen UI may disolay different from abobe image,please refer to the product for details.

### 1. For you

Browse 400,000+ movies and TV episodes from across yor streaming services,all in one place and organized into topics and genres based on what interests you.

### 2. Movies & 3. Shows

Binge watch your favorite TV shows and discover new favorites all in one place.

### 4. Apps

Download and access your favorite apps to discover movies,shows,games,and more.

### 5. Library

When you see an interesting show or movie,add it to your Watchlise to keep track of your new discoveries.

### 6. Search

Thousands of movies and shows at the sound of your voice. Ask Google Assistant to quickly find what you want to watch.

## 4 Live TV/Antenna

To select channels, use **CH +/-** on your remote.

### Add TV channels

If the TV failed to scan the TV channels during the initial setup:

- Go to **Settings > Channels & Inputs > Channels > Channel Scan > Auto Scan**
- Select your signal type **Antenna/Cable**.
- Select **Digital/Analog** to start channel installation.

### TV program guide

To view the latest TV program schedule, press **(GUIDE)** on your remote.

In U.S., Program guide may contain 3rd party streaming program such as YouTube TV, Pluto TV.

If you want to hide/show 3rd party streaming program list and recommendations, go to **Settings > Accounts & sign-in > Your Google TV account > Your services** and switch off/on each app.

### Tip:

Live TV app can show channels which TV receives only through ANTENNA IN. If you watch TV channels through cable set-top box, press **(INPUT)** and select external input connector that is connected to cable set-top box.

### Favorite channels

In U.S., you can switch to show "All channels" or only "Favorite channels" in Live tab. In the "All channels" view, if you select channel name, a star will show up that the channel is now in your favorites. To remove a channel from your favorites, navigate to the channel name and select it. The star will disappear and the channel will be removed from your favorites.

In Canada or other countries, press **OK** while watching Live TV to open the channel list. You can jump to any channels from the list. And from here, you can add your favorite channels.

## 5 Google Assistant

### Meet your Google Assistant

Ask it questions. Tell it to do things. It's your own personal Google, always ready to help. Simply press and hold the Google Assistant button on your remote as you ask a question or say a command to watch movies, open apps, set timer, check weather, and more – using just your voice.

### To set up your Google Assistant

- Check if the remote is connected to Bluetooth. To check if it is paired, go to **Settings > Remotes & Accessories** on your TV.
- If it is not connected, pair the remote by pressing the Google Assistant button and follow the instructions on the "Bluetooth remote control" screen.

### Privacy protection built-in

Google Assistant is designed with your privacy in mind. You can delete any voice-command history by pressing the Google Assistant button and simply saying "Delete what I just said."

For more details on privacy, please visit: <https://safety.google/intl/en-US>

## 6 Google Meet "Google Meet is not pre-installed"

### Google Meet

Google Meet is an app that provides simple, high-quality video calls right from your TV. To start calling with Google Meet, the below items are required:

- 10 Mbps or faster internet access for 1080p video call.<sup>1</sup>
- Google account<sup>2</sup>
- External USB camera<sup>3</sup> with a built-in mic which supports Android 11.0 or later.

- If connectivity issues arise, please turn on Data Saving Mode in the Google Meet app under **Settings > in-call settings > Data Saving Mode**. This reduces the necessary bandwidth as well as the call quality.
- A Google account is required. Sign in with an existing account or create a new one. If there is one already signed in on your Google TV, select the account that you want to use.
- Compatibility of USB cameras with this Philips Google TV may change over time with USB camera hardware and/or software updates.

For more details on how to get started, please visit <https://support.google.com/meet>

### How to connect USB camera

Connect a USB camera with a built-in mic directly into your Google TV before launching Google Meet. Below is an example of how to connect and place USB camera. After you launch Google Meet, follow onscreen instructions to setup and configure settings of Google Meet including access to camera and mic.

### Tip:

You cannot use mic on your Google TV remote for audio on Meet calls. When you talk on Meet call, use the built-in mic in USB camera.

## 7 Connecting your devices

### How to use external devices

#### Connecting antenna or cable/satellite/IPTV set-top box

#### Tip:

Connect your external devices to your Google TV before powering on.

**If connecting to an antenna via an RF cable**  
DTV programs that are broadcasted in your area can be received for free through a digital antenna.

**If connecting a set-top box via an HDMI cable**  
If the TV is connected to a cable or satellite set-top box via an HDMI cable, you must select the correct source by using **(INPUT)** on your remote.

### Change input source

Select and change access to the attached devices such as Blu-ray player, gaming consoles, or cable box.

#### Tip:

Check if the cable from your source device is properly connected into the Port and which input connector type it is connected to.

- Make sure both the TV and A/V device (such as a Blu-ray Disc™ player) are powered on.
- Press **(INPUT)** and select the set-top box or the connected device and wait a few seconds until the picture appears.

### How to use Chromecast built-in™ on your mobile phone/tablet

Casting allows you to mirror your favorite apps on the big screen.

#### Tip:

The device you are using to cast to your TV must be on the same Wi-Fi network.

- On your mobile/tablet open a Chromecast built-in enabled app.
- Tap **Cast**.
- Tap the device you would like to cast to.

### How to connect Bluetooth® devices

Pairing a Bluetooth device, such as a wireless headset, keyboard, or game controller, with your Google TV.

- Enable pairing mode on the device you would like to connect to your TV.
- On the Google TV home screen, press **(DASHBOARD)** on your remote and select **Settings**.
- Select **Remote & Accessories**.
- Select **Pair accessory**.
- Using your remote, select your device from the list shown on your TV. Your Google TV will pair with your device.

#### Tip:

Some devices may require additional steps. Please refer to your Bluetooth device's user manual for more information. To connect your remote, please see "5. Google Assistant".
