### **Quality assured**

- Designed and produced in the Netherlands

### **Supports sleeping routines**

- Long lasting glow-in-the-dark

# Highlights

## Lets baby's skin breathe

Extra-large airholes ventilate your baby's skin keeping it dryer while soothing.

## 98% teat acceptance\*

When we asked parents how their little ones respond to our textured, silicone nipples, an average of 98% said that their baby accepts the Philips Avent ultra soft and ultra air soothers.

## Long lasting glow-in-the-dark

Use ultra air's glow in the dark button to find your baby's pacifier quickly without having to switch on the lights.

## Nipple made of 100% silicone

We choose consciously for silicone material for our ultra soft and ultra air nipples, since it's a safe and inert material, widely used in medical applications, free of hazardous chemicals, endocrine active substances (e.g. BPA) and allergens.

## Orthodontic nipple

Our orthodontic, symmetrical soft silicone nipples are designed for natural oral development.

## Natural feel for baby

Our textured silicone nipple is designed to mimic the feel of mom's breast.

## Sterilize in 3 minutes

The travel case that comes with our ultra soft and ultra air pacifiers doubles as a sterilizer. All you need to do is add some water and pop it in the microwave. Then rest easy that it's clean for the next use.

## Produced in the Netherlands

Our ultra soft and ultra air pacifiers are designed and produced in the Netherlands.
