Attack and neutralize bad breath at the source

Part of the #1 recommended breath care system

Fresh breath and a healthy smile. BreathRx toothpaste contains a unique blend of zinc and essential oils to attack and neutralize bad breath odors, plus stain removal for enhanced whitening, and fluoride for cavity and tartar protection.

A powerful combination of ingredients

- Cavity and tartar protection
- Neutralizes odors

The 3 step system

- Lasting fresh breath in 3 easy steps
- Step 1: Brush

Highlights

Step 1

Brush away odor-causing plaque with BreathRx Whitening toothpaste.

Fluoride

Fluoride helps fight and protect against cavities and tartar.

Zytex

Zytex, our unique blend of zinc, and thymol & eucalyptus essential oils, neutralizes bad breath odors for instantly fresher breath. Found in all BreathRx products.

3 Steps

Don't just mask odors, eliminate them in 3 easy steps – brush, scrape, rinse. Step 1: Brush away odor-causing plaque with BreathRx Whitening toothpaste. Step 2: Get to the bacteria that hides within the uneven surface of your tongue with the BreathRx tongue spray and tongue cleaner. The active ingredient in the spray kills bad breath bacteria on contact and neutralizes odors. The flexible tongue cleaner gently removes bacteria build-up from the tongue. Step 3: Rinse away the remaining germs and debris with the BreathRx antibacterial mouth rinse.
