## Highlights

### Lets baby's skin breathe

Extra-large airholes ventilate your baby's skin keeping it dryer while soothing.

### Long lasting glow-in-the-dark

Use ultra air's glow in the dark button to find your baby's pacifier quickly without having to switch on the lights.

### 98% nipple acceptance\*

When we asked parents how their little ones respond to our textured, silicone nipples, an average of 98% said that their baby accepts the Philips Avent ultra soft and ultra air soothers.

### Nipple made of 100% silicone

We choose consciously for silicone material for our ultra soft and ultra air nipples, since it's a safe and inert material, widely used in medical applications, free of hazardous chemicals, endocrine active substances (e.g. BPA) and allergens.

### Orthodontic nipple

Our orthodontic, symmetrical soft silicone nipples are designed for natural oral development.

### Natural feel for baby

Our textured silicone nipple is designed to mimic the feel of moms breast.
