Charging case dimension(WxDxH): 6.39 x 2.79 x 5.05 cm
Total weight: 0.040 kg

Highlights

Noise Canceling
Noise canceling quietens external noise, including wind, so you can focus on your tunes or calls. Leave it on auto or use the Philips Headphones app to adjust. Want to hear more of what's going on around you? Tap an earbud to activate Awareness Mode.

Great sound. Dynamic Bass
These true wireless earbuds sound great, and you won't need to turn up the volume to get the best out of their 10 mm drivers. Activate Dynamic Bass via the left earbud and you can enjoy the full power of your favorite basslines even if listening quietly.

Clear calls
Your voice will come through clearly when you're on a call. 2 AI mics pick up the sound of your voice while a noise reduction algorithm quietens some of the background noise from the world around you.

Secure, comfortable in-ear fit
You get real comfort thanks to soft, interchangeable silicone ear-tip covers. The ear tips insert securely into your ear canal, creating a perfect seal that helps diminish external noise. Plus, the stalks make these earbuds easy to insert and remove.

IPX4 splash/sweat resistant
Never mind the weather, an IPX4 rating means these earbuds are splash resistant so they don't mind a little rain! Wearing them during a quick workout or on a particularly hot day? They won't mind a little sweat either.

Multipoint and touch controls
Touch controls on the earbud stalks keep things simple and multipoint lets you connect to two Bluetooth devices (iOS or Android) at the same time. Google Fast Pair lets you pair to a compatible Android device with a single tap.

Pocket-sized charging case
Head out with the small charging case in your pocket and your earbuds will always be ready for you. They'll stay protected and charging when
you're not using them, and mono mode means you can use either earbud while the other one charges.

20 hours play time with case
You get 6 hours play time from a full charge, and an extra 14 hours from the case with noise canceling off. Pop the earbuds back in the case and they'll recharge fully in 2 hours. If you need a quick boost, just 15 minutes gives you an extra hour. The case can be charged via USB-C.
