Blades last up to 4 months*

Durable stainless steel blades are designed for lasting performance. For optimal performance, you will only need to replace each blade every 4 months*. Replacement is easy and hassle free.

Wet & dry

OneBlade is fully waterproof (IPX7), so you can shave wet or dry, with or without foam, even in the shower. It is easy to clean, just rinse it under the tap.

Unique OneBlade Technology

Now our famous OneBlade technology is ready for your armpits and those intimate regions down below no matter how long you've let things grow. While the quick cutter mows through all that hair at a speed of 100x per second, the rounded edges and bridge of the skin protector and rounded tips protect your skin under there and down below.
