Close shave. Extra skin protection*

With Skin Protect technology

Minimise skin irritation to look and feel your best every day. Philips 5000X Series with Skin Protect technology is made to give you a close shave with extra skin protection.

Clean shave

- Gives a close, smooth and even shave

Convenience

- Flips open for easy cleaning
- Choose a convenient dry or refreshing wet shave
- Shave confidently with ergonomic anti-slip grip
- Travel with peace of mind
- 1 hour charge for 50 minutes of shaving, 5 min quick charge

Sustainability

- USB-A charging, adapter not included. Plastic-free pack.

Skin Protect technology

- Keeps optimal skin contact even in difficult areas
- Glides smoothly for less irritation
- Anti-Corrosion system respects the skin

Shaver 5000X series

Wet and dry electric shaver

X5012/00

Highlights

SkinGlide Protective Coating

Shave with comfort. The SkinGlide Protective Coating with 100,000 micro-beads per square centimetre improves gliding by 20%** to minimise skin irritation.

Anti-Corrosion Shaving System

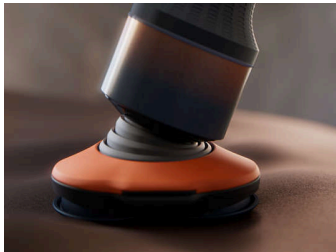

Our shaver's blades are made from surgical-grade European steel that resists corrosion and protects the blades from impurities. Hypoallergenic steel is skin friendly.

Anti-slip Grip

Take control of your shave. The rounded grip pattern is specially designed so you can hold the shaver in any position without slipping, even under the shower.

360° Flexing Head

The fully flexible shaving head turns 360 degrees to give you optimal skin contact even in difficult areas and catch hairs, avoiding excessive pressure peaks to minimise irritation.

ComfortCut Blades

Enjoy long-lasting performance with the 27 self-sharpening, stainless steel ComfortCut Blades. 56,000 cutting actions per minute cut each hair effectively, and you get a clean shave and a smooth, even finish every time.

Wet and Dry use

Whichever way you prefer to shave, the shaver works with your needs. Make it comfortable and dry, or refreshing and wet. Shave with gel or foam, or under the shower.

One-Touch open

You can easily clean the shaver. Just press the One-Touch button to open the shaver head, rinse it and go.

Shaver 5000X series

Wet and dry electric shaver

Highlights

Travel Lock

Ensure that your shaver doesn't run out of battery unexpectedly. Press and hold the on/off LED button for 3 seconds to lock the shaver for travel, so it can't accidentally turn on and drain the battery.

Charging and Shaving time

Get 50 minutes of shaving time from a 1 hour charge, or plug in for instant continuous power. In a hurry? Just 5 minutes of charging gives you enough power for one full shave.

USB-A cable. Plastic-free pack

At Philips, we drive sustainability in all aspects of product creation. This packaging is recyclable and comes without any plastic parts. Our ambition is to reduce waste and minimise the number of USB adapters we put on the market. Should you need an adapter, please contact us via Consumer Care Centre: www.philips.com/support
