Specifications

Marketing specifications

- Expected benefits: More light
- Product highlight: Up to 130% brighter light

Product description

- Application: Additional high beam, High beam, Low beam
- Base: P14.5s
- Designation: H1 X-tremeVision Plus
- Homologation ECE
- Marking ECE: E1 21P
- Range: X-tremeVision Plus
- Technology: Halogen
- Type: H1

Lifetime

- Life time: 350 h

Light characteristics

- Color temperature: 3500 K
- Lumens: 1550 ±15%

Electrical characteristics

- Wattage: 55 W
- Voltage: 12 V

Ordering information

- Order entry: 12258XVPB1
- Ordering code: 01616430

Packaging Data

- EAN1: 8719018016164
- EAN3: 8719018016171
- Packaging type: B1
- 12NC: 928760134805

Packed product information

- Gross weight per piece: 30 g
- Length: 9.5 cm
- Width: 2.7 cm
- Height: 12.9 cm
- Net weight per piece: 6 g
- Pack Quantity: 1
- MOQ (for professionals): 10
- Gross weight individual pack: 17 g

Outerpack information

- Length: 19.5 cm
- Width: 13.8 cm
- Height: 10 cm
- Gross weight per piece: 300 g
- Gross weight [kg]: 0.269

Highlights

The safest legal car lights

Philips X-tremeVision Plus is by far the safest, easiest and most efficient way to upgrade your car headlights within legal parameters. They are fully ECE certified.

A lifetime of safety

Every potential failure of a spare part is a risk for you and your vehicle. This is especially true for headlights. Every broken headlight lamp reduces visibility and safety for you and the oncoming traffic. Philips X-tremeVision plus is optimized for a long and reliable lifetime. So you can see and be seen for longer than with any other high performance lamp.

Exceptional beam quality

With a combination of more light and increased color temperature, Philips X-tremeVision plus qualifies as one of the best performance beams in the halogen segment.

Extra light, extra lifetime

Philips X-tremeVision plus headlights are made for outstanding performance, producing up to 130% brighter light, without compromising on the lifetime. With up to 450 hours*, Philips X-tremeVision's lifetime is significantly higher than competitor solutions in the more light category. (*H4 and H7 tested at 13.2V standard voltage)

Great contrast drives comfort

The increased color temperature in Philips X-tremeVision plus headlights (available in H1, H4 and H7) allows your eyes to focus better and perceive contrasts in the far distance. This makes driving after dark a far more comfortable and safe experience.

One of the brightest bulbs

With its optimized high-precision filament geometry, up to 13 bar high pressure gas filling, high precision coating and high quality UV-Quartz glass, Philips X-tremeVision plus headlights set a new milestone in automotive lighting. They are engineered for the ultimate performance and uncompromising visibility.

See further, react faster

Perfect illumination is especially important in the distance – usually between 75-100 meters in front of your vehicle. Philips X-tremeVision plus boosts your visibility with up to 130% more brightness. This helps you recognize obstacles and any potential dangers earlier than with most other halogen headlight lamps.

Significantly whiter light

The bright white light (3.500 K) is significantly whiter than standard headlamps. The Philips patented gradient coating technologyTM produces a more powerful light. So you can enjoy one of the brightest lighting performances and a highly comfortable night driving experience.
