Highlights

Active antiviral aroma

Aroma Forest is formulated with the famously powerful antiviral essential oils, ravintsara and eucalyptus, which actively disinfect the air. Thanks to nature's natural healing power, Forest is an efficient fighter of viruses and other pathogens, proven to remove 99% of viruses from the air in your car. Blended by the hand of our scent master, it has a fresh, lightly sweet and long-lasting smell that will enhance every journey in your car. As you enjoy this pleasant aroma, it will simultaneously clean the air you breathe.

IFRA compliant for safe use

The fragrances used by the GoPure Style 7000 have been tested to ensure compliance with the International Fragrance Association (IFRA) standards. This means the aroma ingredients were tested and the volume of essential oils is correctly controlled for safe use. Unlike many other synthetic disinfectants on the market, or topical application of pure oil, you can use the aromas with peace of mind, safely driving while enjoying beautiful aromatic scents.
