Highlights

Choose your perfect scent

With the GoPure Style Series you can choose the perfect in-car aroma for your journey. As well as the antiviral aroma, Forest, you can select the hand-crafted scent of OCEAN for your car. With hints of orange and lime, together with floral fragrances of lilies and violets, Ocean evokes the fresh-air smell of a winding coastal drive. It's the beautiful aroma of the open air, even when you're stuck driving in the city.

IFRA compliant for safe use

The fragrances used by the GoPure Style 7000 have been tested to ensure compliance with the International Fragrance Association (IFRA) standards. This means the aroma ingredients were tested and the volume of essential oils is correctly controlled for safe use. Unlike many other synthetic disinfectants on the market, or topical application of pure oil, you can use the aromas with peace of mind, safely driving while enjoying beautiful aromatic scents.
