It is your own responsibility to ensure that the use of the LED retrofit lights complies with applicable local legal requirements.

LED accessories

CANbus Adapters

Some car models present particular challenges for LED-based retrofit lamps. When upgrading your car with LED retrofit bulbs, a few challenges may occur such as an error message on the dashboard, a flickering, or a dimming effect. These error messages don't mean the LED bulb itself is faulty.

Philips CANbus Adapters:

- Are designed to prevent inaccurate dashboard error messages for vehicles equipped with bulb failure detection.
- Avoid flickering and light-dimming issues.
- Ensure smooth installation of Philips HL-LED bulbs.
- Are EMI compliant on electromagnetic interference.
- Are IP65 ingress protection from dust and water.

LED accessories

Philips Adapter Rings

Almost every car model has a different type of socket in which halogen bulbs are secured.

When replacing your halogen bulbs with LED lighting, you may need a connector ring to secure the LED bulbs inside the headlamp.

Please check online if your vehicle model needs a Philips Adapter Rings at: [Philips.com/LEDcompatibility-check](https://www.philips.com/LEDcompatibility-check)

Find the right Philips LED accessories easily

Scan the QR code and access our compatibility list

Check if your vehicle is compatible and if you need additional accessories

Follow our step-by-step guide for a smooth installation
