

PHILIPS

ASC and OBL
Solutions

**Integrated solutions for
ASCs and OBLs**

The expert you need, the partner you trust.

Philips has more of what you need in one trusted place for cardiovascular ASCs and OBLs. We offer a full range of high-performing, highly specialized equipment and devices and services, optimized for efficiency, performance and productivity. As a trusted partner known for offering industry-leading cardiovascular ASC and OBL solutions, we are the expert partner by your side, helping you expand your operations confidently and quickly to provide quality care.

Capital equipment

Our comprehensive portfolio of integrated and high-quality capital equipment helps treat a variety of patients in ASC and OBL and settings while optimizing care and reducing total costs. Our systems come with dedicated and responsive service teams, in addition to robust service agreements and trade-in opportunities.¹

Systems

Image-Guided Therapy Systems (fixed)

Azurion 3 M15
Azurion 5 M20
Azurion 7 M20
Allura Xper FD20

Image-Guided Therapy Systems (mobile)

Zenition 50
Zenition 70
Zenition 90 Motorized

Interventional Applications Platform

IntraSight
(integrated and mobile)

Laser Systems

Nexcimer

Diagnostic Ultrasound

Ultrasound Systems

EPIQ
Affiniti
Sparq
Compact 5000

Portable Ultrasound System

Lumify

Patient Monitoring

Patient Monitor Systems

IntelliVue MP5
IntelliVue X3

Central Monitoring System

Patient Information Center iX
(PIC iX)

Interventional Hemodynamic System

Hemo with IntelliVue X3

Additional services and offerings (through our internal and external partner network)

Ancillary supplies

- Power injector system
- Medical consumables and accessories
- Surgical table and video integration systems
- Office furniture and supplies

Services

- Architecture and interior design support
- Consulting and reimbursement support

Peripheral vascular devices

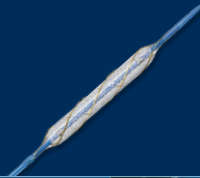

Assessing and delivering the right therapy for each patient is imperative for improving outcomes for peripheral vascular procedures. We ensure you feel confident with solutions that are diverse and adaptable to deliver optimal precision and efficacy.

Therapy

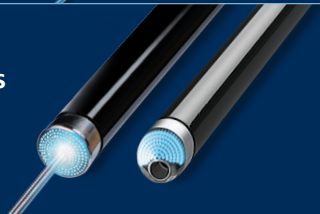

Drug-Coated Angioplasty Balloon
Stellarex

PTA Scoring Balloon Catheter
AngioSculpt

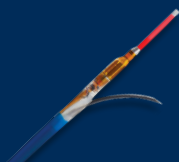

Laser Atherectomy Catheters
Turbo-Power
Turbo-Elite

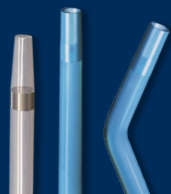

Atherectomy System and Guidewire
Phoenix

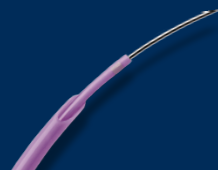

IVUS-Guided Re-Entry Catheter
Pioneer Plus

Support Catheters
Quick-Cross
Quick-Cross Extreme
Quick-Cross Select

Extraction Catheter
Quick-Cat

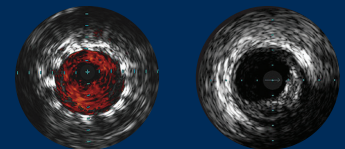

Imaging

Digital IVUS Catheters
Visions PV (.014P RX, .018, .035)
Reconnaissance PV (.018 OTW)

Technologies and modalities

IVUS Imaging
ChromaFlo and grayscale

IVC Filter Removal

Laser Sheath
CavaClear

Coronary vascular devices

Our leading coronary devices enable you to optimize and streamline percutaneous coronary interventions (PCIs) in ASCs. See more clearly and treat more optimally to provide the right therapy for each patient at the point of care using our integrated solutions.

Therapy

PTCA RX Scoring Balloon Catheter
AngioSculpt Evo

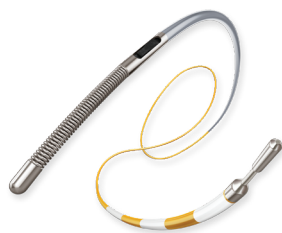

Laser Atherectomy Catheter
ELCA

Physiology

Pressure Guide Wire
OmniWire

Imaging

Digital IVUS Catheters
Eagle Eye Platinum
(regular and short-tip)

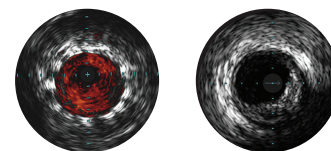

Rotational IVUS Catheter
Refinity ST

Technologies and modalities

IVUS Imaging
ChromaFlo and grayscale

Physiology Modality
iFR

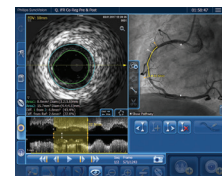

Physiology Modality
FFR
