

Philips
Massge Gun

High-performance motor drives
8mm stroke + 8kg thrust
Fixed frequency & inverter mode
Upgraded titanium massage head

PPM7325

Upgraded massage with direct vibration

Titanium massage head, massage without worry

2800rpm high performance motor, 8mm stroke + 8kg thrust, upgraded titanium alloy massage head, fixed-frequency x inverter dual-mode, 3 customized massage heads, one-key control, multi-color aperture prompts

Massage Upgrade

- 6 massage heads, specialized for each area
- Titanium alloy massage head, skin-friendly and delicate,

Customized design

- Simple handling and clear gears
- Brushed metal body
- 130min long lasting battery life

High-performance powertrain

- Punching in the right place to break down muscle soreness
- Fixed frequency & inverter dual mode 5 gears to choose from
- Deep amplitude, straight to the depths

Lightweight body

- Exclusive customized storage bag
- Lightweight body, frosted feel, comfortable to grip

PHILIPS

Massge Gun

High-performance motor drives 8mm stroke + 8kg thrust, Fixed frequency & inverter mode, Upgraded titanium massage head

Specifications

General specifications

- Product Dimension (LxWxH): 160x58x203 mm
- Net weight: 0.71kg
- Main materials: ABS plastic, Titanium
- Color: glory
- Packaging Dimension(L)*(W)*(H): 246*232*68 mm
- Quantity of massage heads: 6

Main parameters

- Working voltage: 7.4V
- Massage amplitude: 8mm

- Massage frequency: 3200rpm
- Working power: 33W
- Maximum thrust: 8kg
- Charging current: 2 A
- Charging port: TYPE-C
- Charging voltage: DC 5V

Country of origin

- Made in: China

Service

- Warranty period: 2 years

PPM7325GY/90

Highlights

accept the consequences of one's actions

Easy storage and portable massage

Specialized Massage Heads

According to the force characteristics and relaxation needs of each muscle group, 6 customized massage heads are configured to provide targeted massage for different muscle groups, so you can instantly relax your muscles.

8kg thrust

Large thrust design, fist in place, directly hit the muscle soreness point, instantly give the fascia "loose tie", immediately after the exercise to use the fascia gun to relax the tense muscles, bring you a customized massage relaxation experience.

Lightweight body

Upgraded lightweight body, weighing only about 700g, reducing the pressure on the wrist, with frosted exterior design, delicate and non-slip feel, upgrading your sense of massage experience.

Fixed frequency x inverter dual mode x 5 gears

Adopting fixed-frequency + inverter dual-mode, supporting 1600-2800rpm vibration frequency, you can choose the right gear massage according to the body condition, gradual impact on the deep layer of muscle, to meet a variety of relaxation needs.

One-touch control x add light ring alert

The simple design of one-button control makes it easy to shift gears, and the thoughtful addition of a colorful light ring prompts the ambient light to change with gear switching, which is easy to see at a glance.

8mm stroke

The use of high-performance motor, smooth operation, surging power stable and lasting output, up to 2800 rpm speed impact, direct hit 8mm deep muscle groups, instantaneous relaxation of tight muscles, deep relaxation of fascia.

Brushed metal texture

The frosted metal body design provides you with a comfortable grip, plus the one-piece "T" shock-absorbing, non-slip handle design provides a comfortable grip and fits in the palm of your hand.

Upgraded titanium massage head

Upgraded titanium alloy massage head, skin-friendly and delicate, body feeling comfortable; high strength corrosion resistance, no need to worry about sweat corrosion; can be used with essential oils or lotions according to the needs of the use, to give you a pleasant sense of massage experience.

long-lasting battery life

Upgrade built-in 2500mAh power lithium battery, high energy density, a charge can last 130min, mainstream type-C convenient fast charging interface, replenish power at any time.
