- Gross weight per piece: 2,53 g

Highlights

Bright, comfortable work light
Whether you're in your garage, completing some DIY, or trying to fix an appliance, its always handy to have a reliable lamp around you. The Philips Xperion 3000 Pillar delivers a powerful main beam of 500 lumens, providing ample illumination to complete the task.

Handy spotlight
The Philips Xperion 3000 Pillar also features a handy spotlight to illuminate those hard-to-see spaces. This high-power spotlight on the top of the lamp delivers 120 lumens for a clear, detailed view even in dark corners.

3 magnets
You often need both hands when working on a task. The Philips Xperion 3000 Pillar features three in-built magnets so you can easily mount the lamp on any nearby metal surface, such as under a sink or the bonnet of a car.

2 hooks for hands-free use
When you need both hands free to work, hang the Philips Xperion 3000 Pillar nearby with its two in-built 360 retractable hooks.

Up to 8 hours of battery life
Once fully charged, your Philips Xperion 3000 Pillar delivers bright white light from its main beam for up to 3 hours in Boost mode. If you use the Eco mode, the battery will last up to eight hours. So with occasional use, the lamp can operate for several days before recharging.

Shock resistant
Even the most careful person sometimes drops things. Thats why the Philips Xperion 3000 Pillar is designed with a robust housing, which means it will survive being dropped occasionally.
