3.5 mm headphone socket

TAZ5000

All-in-one CD/FM radio player

Classic or modern? This boombox-style multi-source CD player is both. You can play physical CDs in any format, and it offers clear FM radio, Bluetooth streaming and more. There's a socket for headphones and a handy companion app too.

Portable multi-source CD player

- Portable boombox-style CD player
- Plays all CD formats: CDs, CD-MP3, CD-R, CD-RW
- Digital FM radio with up to 30 presets
- Bluetooth 5.4 for better sound and Auracast streaming
- Easily connect headphones and other sources
- USB port, Audio in, 3.5 mm headphone socket

Easy to place. Plays what you love.

- Philips Home Entertainment app. Simple sound control
- Two 3" speaker drivers. 4 W (RMS). Dynamic Bass Boost
- Built-in carrying handle. Operates via AC or batteries*
- LCD with adjustable brightness. Programmable sleep timer

Made with environmentally friendly materials

- Made with recycled plastic. Responsible packaging
- Dimensions: 310 x 128 x 210 mm

Highlights

Portable CD player

Whether you're discovering the joy of physical CDs for the first time or all over again, this top-loading CD player is a great choice for casual listening. It can read any kind of CD format and the carry handle makes it easy to move around. Simply plug into an AC outlet or insert six batteries (type R14 C, batteries not included) and take it outside.

Digital FM radio

Embrace the music source that's been around longer than CDs! The FM digital tuner delivers clear reception: you can set up to 30 presets and

programme your three favourite stations for instant access via the CD player or the virtual remote control in the Philips companion app.

Next-generation Bluetooth

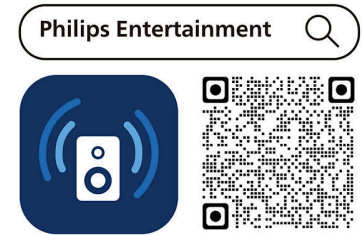

Auracast is supported, so you'll be able to play music on this CD soundmachine from multiple Auracast-compatible transmitting devices (including smartphones) around the house. The LC3 codec is supported for noticeably better sound when streaming.

USB, Audio in, 3.5 mm socket

Want to be immersed in your sounds? Simply plug your wired headphones in to the 3.5 mm headphone socket. For more playback options, the USB port lets you plug in a flash drive loaded with MP3 files or you can connect legacy audio devices or turntables to the Audio in port.

Philips Entertainment app

Controlling the CD player remotely is simple with our handy companion app. A virtual remote control appears on the screen of your smart device and you can use it to switch between sources, select radio presets, adjust volume, enhance the bass, set the sleep timer, set display brightness and more.

Recycled materials

Over 80% of the plastic used in this CD player is recycled and our packaging is plastic-free. Inserts are printed on recycled paper with soy-based ink and the packaging itself uses FSC-certified recycled cardboard.
