

# Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (amended by Regulation (EU) No 2020/878)

Date last verification : 2021-03-08  
Revision date : 2020-08-20  
Issue date : 2009-01-28

Version : 5.0

Indication of changes : §2.1 - §2.2 - §4.1 - §4.2 - §5.3 - §6.1 - §6.2 - §6.3 - §7.1 - §7.2 - §8.2 - §9.1 - §10.4 - §10.6 - §11.1 - §12.2 - §12.3 - §13.1

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

Safety Data Sheet : 25271  
Product code : 8803 242 12011  
Product name: : S3242/12 EU (FLEX) : CONTAINING RECHARGEABLE LI-ION BATTERY CELL L1450-0.75 [2.7 WATT-HOUR, NET WEIGHT 20 GRAM]

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses : No information available.  
Uses advised against : No information available.

### 1.3. Details of the supplier of the safety data sheet

Supplier : PHILIPS CONSUMER LIFESTYLE, DRACHTEN  
Oliemolenstraat 5 Tussendiepen 4  
9203 ZN Drachten 9206 AD Drachten  
The Netherlands The Netherlands  
Telephone : n.a. n.a.  
Responsible for the compilation of the SDS on behalf of the supplier/ manufacturer : hazcom@philips.com

### 1.4. Emergency telephone number

Emergency telephone number (regarding transport of DG) : +31 (0)497-598315

## SECTION 2: Hazards identification

### 2.1. Classification of the substance or mixture

#### 2.1.1. Classification according to Regulation (EC) No 1272/2008 [CLP]

This article doesn't contain hazardous substances or mixtures intended to be released under normal or reasonably foreseeable conditions of use.

### 2.2. Label elements

#### Labelling according to Regulation (EC) No. 1272/2008 [CLP]

none

Remarks on labelling : As an article, this product presents negligible health and physical hazards under reasonably anticipated conditions of use. Accordingly, a Safety Data Sheet (SDS) is not required for this product under the standards cited above. This document is prepared as a courtesy to provide persons using this product with additional safety and regulatory information.

### 2.3. Other hazards

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.  
This product does not contain a substance that has endocrine disrupting properties with respect to humans as no components meets the criteria.  
This product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms as no components meets the criteria.

## SECTION 3: Composition / information on ingredients

### 3.2. Mixture

| CAS No.             | EC No. | REACH No. | Concentration (%) | Classification according to Regulation (EC) No 1272/2008 [CLP] | SCL / M-factor / ATE |
|---------------------|--------|-----------|-------------------|--|----------------------|
| LITHIUM ION BATTERY |        |           |                   |  |                      |
|                     |        |           |                   |  |                      |

Full text of H- and EUH-statements: see section 16.

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

- General information** : When in doubt or if symptoms are observed, get medical advice.
- Following inhalation** : No special measures are necessary.
- Following skin contact** : No special measures are necessary.
- After eye contact** : No special measures are necessary.
- Following ingestion** : No special measures are necessary.
- Self-protection of the first aider** : No special measures are necessary.

### 4.2. Most important symptoms and effects, both acute and delayed

**Adverse human health effects and symptoms / Organs affected:**

not applicable

- Following inhalation** : not applicable
- Following skin contact** : not applicable
- After eye contact** : not applicable
- Following ingestion** : not applicable

Further information: SECTION 11: Toxicological information

### 4.3. Indication of any immediate medical attention and special treatment needed

- Notes for the doctor** : Treat symptomatically.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

- Suitable extinguishing media** : Fire class B: - Dry extinguishing powder. - Foam. - Carbon dioxide (CO2). - Water mist.
- Unsuitable extinguishing media** : Wet chemical. - Strong water jet.

### 5.2. Special hazards arising from the substance or mixture

**Hazardous combustion products**

- In case of fire may be liberated** : lithium oxide

### 5.3. Advice for firefighters

In case of fire: Wear self-contained breathing apparatus. Flame-retardant protective clothing. Protective clothing. (EN 469)

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

- Personal precautions** : Use personal protection equipment. Lithium batteries are highly flammable. Caution! Increased risk of explosion and fire. In case of fire: Evacuate area.

#### 6.1.1. For non-emergency personnel

- Protective equipment** : Personal protection equipment: see section 8.
- Emergency procedures** : In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion.

#### 6.1.2. For emergency responders

- Personal protection equipment** : Personal protection equipment: see section 8.

### 6.2. Environmental precautions

Collect spillage. Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Do not allow to enter into soil/subsoil. Ensure waste is collected and contained.

### 6.3. Methods and material for containment and cleaning up

#### 6.3.1. For containment

Damaged batteries must not be placed in collection containers. Ideally, intermediate storage should take place in a sealed container, with the damaged battery or power pack best covered with sand or another non-combustible binding agent.

#### 6.3.2. For cleaning up

Damaged batteries must not be placed in collection containers. Ideally, intermediate storage should take place in a sealed container, with the damaged battery or power pack best covered with sand or another non-combustible binding agent.

#### 6.3.3. Other information

Inform the relevant authorities if the product has entered sewers, waterways, soil or air and might have caused environmental pollution.

### 6.4. Reference to other sections

Safe handling: see section 7

Personal protection equipment: see section 8

Disposal: see section 13

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

#### Protective measures

|  |   |
|--|---|
| <b>Advices on safe handling</b>                        | : No special handling advices are necessary. High-energy batteries must be packed and secured in the transport container in such a way that the individual batteries do not slip inside the container. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. |
| <b>Measures to prevent fire</b>                        | : Keep away from sources of heat (e.g. hot surfaces), sparks and open flames. See SECTION 5: Firefighting measures and SECTION 10: Stability and reactivity.  |
| <b>Measures to prevent aerosol and dust generation</b> | : Not dust explosive.   |
| <b>Environmental precautions</b>                       | : Avoid release to the environment.   |
| <b>Advices on general occupational hygiene</b>         | : When using do not eat, drink, smoke, sniff. Take off contaminated clothing. Wash hands before breaks and after work.  |
| <b>Further information</b>                             | : No information available.   |

### 7.2. Conditions for safe storage, including any incompatibilities

|   |  |
|---|--|
| <b>Technical measures and storage conditions</b>  | : Keep container dry. - Keep away from: ignition sources or heat sources. - Keep away from: Acids. - Keep away from: Alkalis. - Keep away from: Water. |
| <b>storage temperature</b>                        | : No information available.  |
| <b>Requirements for storage rooms and vessels</b> | : No information available.  |
| <b>Storage class</b>                              | : M4   |
| <b>Materials to avoid</b>                         | : No information available.  |
| <b>Further information on storage conditions</b>  | : No information available.  |

### 7.3. Specific end use(s)

|   |                             |
|---|-----------------------------|
| <b>Recommendation</b>                       | : not applicable            |
| <b>Industrial sector specific solutions</b> | : No information available. |

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

#### Occupational exposure limit values

Does not contain substances above concentration limits fixing an occupational exposure limit.

Source : SUVA, Dutch Health Council, 2006/15/EC, 2004/37/EC, LOLI DB, 2000/39/EC, GWBB/VLEP, Gestis, 91/322/EEC, 2017/164/EU, INRS (Fr), TRGS 905, TRGS 910, Austrian OEL Regulation, Dutch Social-Economic Council (SER), US OSHA, EU OSHA, TRGS 900, ACGIH®, 2009/161/EU

20 °C, 1013 mbar: European Union / China / South Korea

25 °C, 1013 mbar: United States / Canada / Japan

[x]: appraisal period x minutes

C: peak limitation

H: skin resorptive

S: Statutory threshold limit value

ALARA: As low as reasonably achievable (ALARA principle).

#### Remark Occupational exposure limit values

none

## DNEL (Derived No Effect Level (DNEL-value))

No information available.

## PNEC (Predicted No Effect Concentration (PNEC-value))

No information available.

### 8.2. Exposure controls

#### 8.2.1. Appropriate engineering controls

Use explosion-proof machinery, apparatus, ventilation facilities, tools etc. Safe handling: see section 7

#### 8.2.2. Personal protection equipment

|                        |   |
|------------------------|---|
| Eye/face protection    | : Eye protection: not required.                         |
| Skin protection        |   |
| Hand protection        | : Hand protection is not required.                      |
| Body protection        | : Body protection: not required.                        |
| Respiratory protection | : Usually no personal respirative protection necessary. |

#### 8.2.3. Environmental exposure controls

See section 7. No additional measures necessary.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|  |  |
|--|--|
| Physical state                               | : solid  |
| Appearance                                   | : Article - batteries and accumulators   |
| Colour                                       | : various  |
| Odour  | : odourless  |
| Odour threshold                              | : No information available.  |
| pH   | : not applicable   |
| Melting point/freezing point                 | : No information available.  |
| Initial boiling point and boiling range      | : No information available.  |
| Flash point                                  | : No information available.  |
| Evaporation rate                             | : not applicable   |
| flammability                                 | : Lithium batteries are highly flammable. Caution! Increased risk of explosion and fire. |
| Upper/lower flammability or explosive limits |  |
| Upper explosion limit                        | : not applicable   |
| Lower explosion limit                        | : not applicable   |
| Vapour pressure                              | : not applicable   |
| Vapour density                               | : No information available.  |
| Relative density                             | : No information available.  |
| Solubility(ies)                              |  |
| Water  | : not applicable   |
| Partition coefficient n-octanol/water        |  |
| Mixture                                      | : Product/Substance is inorganic.  |
| Auto-ignition temperature                    | : not applicable   |
| Decomposition temperature                    | : No information available.  |
| Viscosity                                    | : not applicable   |
| Explosive properties:                        | : not applicable   |
| Oxidising properties                         | : not applicable   |

### 9.2. Other information

|                                     |                  |
|-------------------------------------|------------------|
| Critical temperature T <sub>c</sub> | : not applicable |
| Fat solubility                      | : not applicable |

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

This material is considered to be non-reactive under normal use conditions.

### 10.2. Chemical stability

The product is chemically stable under recommended conditions of storage, use and temperature.

### 10.3. Possibility of hazardous reactions

No hazardous reaction when handled and stored according to provisions.

#### 10.4. Conditions to avoid

Stable under recommended storage and handling conditions. Strong mechanical impact.

#### 10.5. Incompatible materials

none

#### 10.6. Hazardous decomposition products

No known hazardous decomposition products. - Decomposition products in case of fire: see section 5.

### SECTION 11: Toxicological information

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

|                                   |                  |
|-----------------------------------|------------------|
| Acute toxicity                    | : not applicable |
| Following ingestion               | : No             |
| Skin contact                      | : No             |
| Inhalation                        | : No             |
| Skin corrosion/irritation         | : not applicable |
| Serious eye damage/eye irritation | : not applicable |
| Respiratory or skin sensitisation | : not applicable |
| Germ cell mutagenicity            | : not applicable |
| Carcinogenicity                   | : not applicable |
| Reproductive toxicity             | : not applicable |
| STOT-single exposure              | : not applicable |
| STOT-repeated exposure            | : not applicable |
| Aspiration hazard                 | : not applicable |
| Symptoms                          |                  |
| Following inhalation              | : not applicable |
| Following skin contact            | : not applicable |
| After eye contact                 | : not applicable |
| Following ingestion               | : not applicable |

#### 11.2. Information on other hazards

##### 11.2.1. Endocrine disrupting properties

This product does not contain a substance that has endocrine disrupting properties with respect to humans as no components meets the criteria.

##### 11.2.2. Other information

No information available.

### SECTION 12: Ecological information

#### 12.1. Toxicity

No information available.

#### 12.2. Persistence and degradability

|                              |                             |
|------------------------------|-----------------------------|
| Biodegradation               | : No information available. |
| Chemical oxygen demand (COD) | : No information available. |
| Biochemical oxygen demand    | : No information available. |
| BOD5/COD ratio               | : No information available. |

#### 12.3. Bioaccumulative potential

|                                       |                                   |
|---------------------------------------|-----------------------------------|
| Bioconcentration factor (BCF)         |                                   |
| Mixture                               | : not applicable                  |
| Partition coefficient n-octanol/water |                                   |
| Mixture                               | : Product/Substance is inorganic. |

#### 12.4. Mobility in soil

No information available.

#### 12.5. Results of PBT and vPvB assessment

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

#### 12.6. Endocrine disrupting properties

This product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms as no components meets the criteria.

#### 12.7. Other adverse effects

No information available.

#### 12.8. Additional ecotoxicological information

Discharge into the environment must be avoided.

### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

The generation of waste should be avoided or minimized wherever possible. Waste should not be disposed of by release to water, drainage, sewer, or the ground. Collect the waste separately. Disposal should be in accordance with applicable regional, national and local laws and regulations. Lithium batteries and lithium cells of less than 500 grams (e.g. mobile phone batteries, laptop batteries) can be collected together with the "normal" dry batteries and disposed of in a collection container specifically for these types of batteries. However, this only applies if the batteries have no visible damage and have not been degassed. Do not mix with other wastes.

Other disposal recommendations : not applicable

### SECTION 14: Transport information

#### 14.1. UN number or ID number

UN 3481

#### 14.2. UN proper shipping name

LITHIUM ION BATTERIES CONTAINED IN EQUIPMENT

#### 14.3. Transport hazard class(es)

9

#### 14.4. Packing group

none

#### 14.5. Environmental hazards

Marine pollutant : No

#### 14.6. Special precautions for user

Hazard identification number (Kemler No.) : none

EmS (IMDG) : F-A, S-I

#### 14.7. Maritime transport in bulk according to IMO instruments

No information available.

#### 14.8.

ADR / RID

The product may be transported as such, as it meets the criteria of special provision: 188

IMDG

The product may be transported as such, as it meets the criteria of special provision: 188

ICAO-TI / IATA-DGR

The product meets the criteria of (and may be transported according to) IATA packing instruction [GENERAL REQUIREMENTS & SECTION II]: 967.

The batteries meet the requirements of each test of the "UN Manual of Tests and Criteria, Part III, subsection 38.3".

### SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

##### International regulations:

Minamata Convention on Mercury : not applicable

## EU legislation

**Directive 2012/18/EU on the control of major-accident hazards involving dangerous substances [Seveso-III-Directive]**  
not applicable

**This mixture contains the following substances of very high concern (SVHC) which are subject to authorisation according to Annex XIV of REACH:**  
not applicable

### Overall Assessment on CMR properties

according to Regulation (EC) No. 1907/2006 (REACH) : not applicable

### Regulation (EC) No 850/2004 [POP-Regulation]

not applicable

### Regulation (EC) No. 2037/2000 concerning materials, which cause damage to the ozone layer.

not applicable

**Observe restrictions to employment for juvenils according to the 'juvenile work protection guideline' (94/33/EC).**

**Observe employment restrictions under the Maternity Protection Directive 92/85/EEC or stricter national regulations, if applicable.**

## 15.2. Chemical Safety Assessment

No information available.

## SECTION 16: Other information

### Additional information

Lithium batteries are highly flammable. Caution! Increased risk of explosion and fire.

### Relevant H-phrases (Number and full text)

not applicable
