## Best filtration, in the Smallest size\*

Powered by Aquaporin Inside® RO Filtration

5-stage deep filtration effectively reduces chlorine, odor, particulates, and total dissolved solids as small as 0.0001 micron, delivering cleaner, better-tasting water.

### **Aquaporin Inside® technology**

- Aquaporin Inside® technology
- Deep reverse osmosis filtration down to 0.0001 microns
- Plug and play; no installation required
- Filter lifetime indicator reminds on-time filter replacement
- Auto membrane flushing for optimal filtration performance
- Saves thousands of single-use plastic bottles every year
- BPA-free

# Highlights

## Aquaporin Inside<sup>®</sup> technology

Aquaporin Inside technology filters water better than before

## Reverse osmosis filtration

Experience the benefits of deep reverse osmosis filtration with Philips Aquaporin Inside<sup>®</sup>. It reduces contaminants as small as 0.0001 micron, including total dissolved solid, chlorine, particulate, and impurities that can affect taste and odor, giving you cleaner drinking water.\*\*

## Installation free

The dispenser will start to work as soon as you connect the power and turn it on. No need to plumb in.

## Filter replacement reminder

The filter lifetime indicator reminds you to replace the filter on time, to ensure the best filtration performance.

## Auto flushing

The auto-flushing program regularly cleans the membrane, ensuring the dispenser maintains optimal performance.

## Eco-friendly

Bottled water takes a significant toll on the environment, and also costly. With this water filtration system, you never need it again - you always have access to clean and fresh-tasting water.

## BPA-free

All parts that come into direct contact with water are made of BPA-free materials.

# Specifications

## Filtration performance

Heavy metal removal

Virus removal

Chlorine reduction

Water hardness reduction

Bacteria reduction

Drain ratio: 75% (3:1)

Filtration precision: Down to 0.0001 micron

Stage of filtration: 5-stage

## Filter specifications

Filter lifetime: Up to 12 months

AQP RO filter: ADD554

## General specifications

Product Dimension (LxWxH): 5.2\*13.5\*13.9 inches/133\*342\*353 mm

Applicable inlet water: Municipal tap water

Inlet water temperature: 5-38°C °C

Rated power: 36W

Country of origin: Made in China

Inlet water pressure: 0-0.06MPa

Detachable water reservoir: 9-cup/2.2L capacity
