- Beautifully portable compact-fold design
- A quick 5-minute charge provides 3 hours of playback
- Clear calls. They'll hear what you're saying
- Convenient multi-function button on right ear cup

Natural sound and handy companion app

- Philips Headphones app. Custom sound control
- Warm, detailed, natural. Philips sound signature

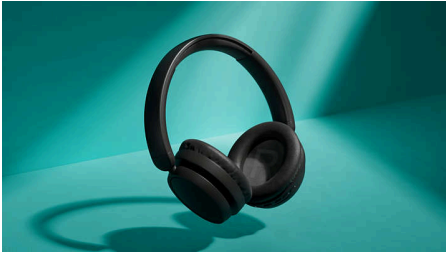

5000 series

Over-ear wireless headphones

TAH5209BK/97

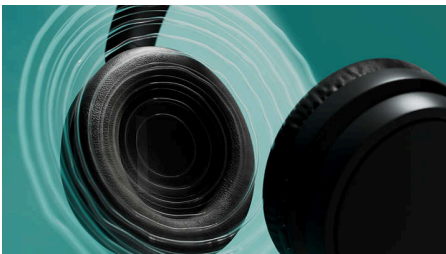

Highlights

Lightweight and comfy

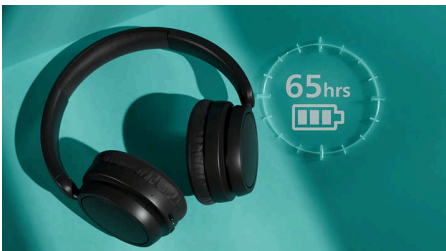

These over-ear headphones are primed for everyday comfort. The cushioned headband is so light you'll barely feel it, and the soft ear cups can be angled so they feel just right. Each ear cup is padded with memory foam: the more you wear them, the more you'll love them.

Great sound. Dynamic Bass

You get great sound from the 40 mm drivers, and good passive noise isolation from the over-ear fit. If you love a good bassline, activate Dynamic Bass via the Philips Headphones app and you can enjoy the full power of your favorite tunes even if you're listening quietly.

Up to 65 hours play time

With up to 65 hours of play time, these wireless headphones will see you through plenty of playlists. They recharge fully in just 2 hours via

USB-C, and a quick 5-minute charge will give you enough power to keep the music playing for another 3 hours.

Solid Bluetooth connection

Advanced Bluetooth connectivity gives you a more stable connection for seamless streaming, and you can connect to two Bluetooth devices (iOS or Android) at the same time. Enjoy that playlist or listen uninterrupted to your favorite podcast without annoying dips in the sound.

Clear calls

Your voice will come through clearly when you're on a call. A dedicated mic picks up the sound of your voice while a noise-reduction algorithm quietsens some of the background noise from the world around you.

Compact-fold design

Bring them with you! With their stylish matte colorways and foldable design, there's nowhere you can't go with these over-ear wireless headphones. The ear cups fold flat and swivel inward, for easy storage in your pocket or bag.

Convenient multi-function button

A handy multi-function button on the right ear cup lets you manage calls or control playback and volume. If you're watching videos or movies, you can use the power button to activate a low-latency setting.

Philips Headphones app

You can use our companion app to activate Dynamic Bass or turn on the low-latency setting when watching videos. There's also a range of preset sound styles: 'Voice' is ideal for podcasts! Ever forget to turn off your headphones? Set the timer on the app and they'll power down automatically.

Philips sound signature

Music to podcasts, these wireless headphones make the most of the sounds you love! You'll enjoy warm, detailed sound with rich bass from the drivers, which are tuned to the Philips sound signature.
