

PHILIPS

Shower filter

8L/min

AWP1775CH

Clean water for a refreshing shower

Remove chlorine and impurities

A compact shower filter to give you a comfortable and refreshing experience by removing residual chlorine and impurities.

Clean water

- NSF certified KDF to remove chlorine and impurities

Made easy

- Simply discard the one-piece filter after use
- High water flow offers enjoyable shower experience
- Anti-scald material to ensure safe use

Highlights

High quality KDF filter

The filter is made of NSF certified KDF which can remove residual chlorine and impurities such as rust and sediments, so that you can enjoy comfortable and refreshing shower with clean water.

High water flow

Dense and smooth water flow of 8L per minute for an enjoyable shower experience.

Anti-scald material

The housing is made of anti-scald material which fully adapts to the temperature of hot water from conventional water heaters, ensuring safe usage.

One-piece disposable filter

Convenient and safe to discard the one-piece filter after use, avoiding secondary pollution.

Purification system

Chlorine removal
