### LED Display

#### Signage Solutions

Philips Urban LED 6000 Series

57HUL6583DP

## **Outdoor LED Digital Billboard**

The Urban LED 6000 is energy efficient, boasts ultra-high brightness of 10,000 nits with P10 pixel pitch. Ultimate visuals for billboards, arenas and airports. With front and rear maintenance it accommodates different cabinet sizes.

#### Effortless picture quality. Endless possibilities.

- Ultra-high brightness direct view
- Crystal clear images
- Various panel dimensions
- Different panels for the right fit
- High energy efficiency
- Easy maintenance front and rear
- Made for outdoor

#### **Signage Solutions**

LED Display

### Highlights

#### **Ultra-high brightness direct view**

Make the ultimate impact with crisp, clear and vibrant content in bright locations. The high brightness Philips Urban LED 6000 Series ensures for optimal viewing performance even with direct sunlight.

#### **Crystal clear images**

Adapted shader mask design for outdoor NPP solutions and the underlying technologies bring Philips Urban LED 6000 series unparalleled high contrast ratio and high refresh rate, delivering smooth broadcasting with more colour subtlety, shading, and saturation.

#### Various panel dimensions

The Philips Urban LED 6000 Series is designed to mix different cabinet types to create your perfect dimensions and enable many options for splicing.

#### Different panels for the right fit

Chose from gold or copper wire panels. The gold wire range provide brighter dvLED display, less heat generation and longer durability.

#### **High energy efficiency**

The heat dissipation is not only effectively improves the efficiency of the heat dissipation, but also reduces the power consumption, contributing to sustainability goals.

#### **Easy maintenance**

All modules and components can be maintained from front and rear side. Modules can be unlocked from front or rear. The internal electronics are also easy to access for servicing or maintenance. Each of the LED modules in a cabinet can be unlocked using a T-hex tool, to be able to remove the module out from the front or via the rear side.

#### Made for outdoor

IP66 rated: dustproof, waterproof, and salt spray resistant.

### Specifications

#### Picture/Display

Brightness (nits): 10000 nit Calibration(brightness/color): Color and Brightness Color temperature adjust range: 3000~10000 K Contrast ratio: 10000:1 Bit-depth(bit): ≥14 Frame frequency (Hz): 50 - 60 Scan rate (lines): 3 Refresh rate(Hz): 7680 (with CE report and cert.) Viewing angle (°) H/V: 160/120

#### Power

Consumption (Typical): 168 W Max Power consumption (W): 600 W Input voltage: AC100~240V (50 & 60Hz) BTU/M2 (BC): 2132.59 BTU/M2 (AC): 1706.07 Power consumption/M2 (W)(BC): 625 Power consumption/M2 (W)(AC): 500

#### **Operating conditions**

Temperature range (operation): -30~50 °C Temperature range (storage): -40~60 °C Humidity range (operation)[RH]: 10~90% Humidity range (storage) [RH]: 10~70% Working environment (indoor/outdoor): outdoor IP Rating (front/rear): IP66/65

#### Cabinet

Cabinet area (m2): 0.96 Cabinet pixels ( Dot ): 13824 Cabinet resolution (W x H): 96x144 pixels Data connector: Seetronic Power connector: Seetronic Receving card brand: Novastar Weight (KG): 30.5±1 Cabinet construction: Profile aluminum Cabinet Size (WxHxD in mm): 800x1200 Cabinet size (inch): 57"

#### Module

LED type: SMD Pixel constitution: 1R1G1B Module resolution (WxH pixels): 48x36 Pixel pitch (mm): 8.33 Module size (WxH in mm): 400x300 Weight(KG): 1.35~1.45kg LED part number: SMD2727 LED Lifetime (Hrs, half brightness): 100,000

#### Miscellaneous

Warranty: 36 months Regulatory approvals: RoHS, EMC, FCC SDOC, Part 15, Class A, ETL, LVD Certification: TUV, ITS
