Clean water for a refreshing shower

Remove chlorine and impurities

A compact shower filter to give you a comfortable and refreshing experience by removing residual chlorine and impurities.

1

- NSF-certified KDF to remove chlorine and impurities
- High water flow for an enjoyable shower experience

2

- Anti-scald material to ensure safe use

3

- Simply discard the one-piece filter after use

Highlights

1

The filter is made of NSF-certified KDF, which can remove residual chlorine and impurities such as rust and sediments, so that you can enjoy a comfortable and refreshing shower with clean water.

2

Dense and smooth water flow of 8 L per minute for an enjoyable shower experience.

Anti-scald material to ensure safe use

The housing is made of anti-scald material that fully adapts to the temperature of hot water from conventional water heaters, ensuring safe usage.

Simply discard the one-piece filter after use

It is convenient and safe to discard the one-piece filter after use, avoiding secondary pollution.
