

Our EcoPassport

As a company committed to doing business sustainably, we are keen to help our customers make responsible choices. We offer solutions that improve people's health and well-being while reducing impact on the environment.

Our EcoPassports summarize the environmental benefits our products offer in one or more of our focal areas. For example, increased energy efficiency, more sustainable packaging, or a circular-ready product design; optimized for repair, refurbishing and recycling.

In this way, we want to help ensure that each purchase decision is the right one for our customer's needs *and* the planet.

Philips Avent ultra start, ultra air, ultra soft pacifiers

Philips Avent ultra pacifier portfolio fulfills different needs of babies and offers a variety of nipple sizes for each development stage. We consciously choose silicone over natural rubber for our ultra pacifier nipples, as a safe and inert material free of allergens.

Philips Avent **ultra start** is extra small, dedicated to newborns and perfect as a first pacifier.

Philips Avent **ultra air** allows baby's skin to breathe for maximum soothing comfort.

Philips Avent **ultra soft** is our softest pacifier, for your baby's sensitive skin.

All our pacifiers come with a sterilization case to ensure you can offer perfect hygiene for your little one.

Packaging

- Cardboard material from 100% certified forests by Forest Stewardship Council (FSC)
