Enhance your viewing with the NeoPix 200, dynamic sound, and versatile media player. Connect devices effortlessly via HDMI, or 3.5mm jack and power your smart dongles with the dedicated USB output.

Amazing Images

- Advanced LED Light Source
- Personalize your projection
- Full HD 1080p

Easy Connection

- Fully connectable options
- Built-in media player
- Compact and Transportable

Highlights

Fully connectable options

Connect all your favorite devices via HDMI (like smartphone, tablet, laptop, gaming console), and play all your videos, pictures, and audio files from a USB thanks to the built-in multimedia player. Access to unlimited content by connecting to any smart gaming consoles or TV boxes like Fire Stick or Apple TV (dongles can be connected to the HDMI and USB port for power). There is also a 2x HDMI, USB, AV in, and Jack 3.5 to connect external speakers.

Built-in media player

Your multimedia essentials, now at your fingertips. Watch videos, groove to your favorite tunes, or relive your holiday memories — all accessible from your USB sticks, hard drives, or even MicroSD cards.

Advanced LED Light Source

The high-quality LED light system delivers rich, vivid colors that last up to 30,000 hours. With an average use of 4 hours per day, this projector will last for up to 20 years! In addition, its energy consumption is much lower than that of a regular lamp projector, allowing you to enjoy a bigger screen and a fully immersive cinema experience, all from an environment friendly device.

Compact and Transportable

Big entertainment doesn't need a big package. The NeoPix 200, with its lightweight design (1.35kg), promises a massive visual treat wherever you venture.

Personalize your projection

Optimize your placement options with image options! The keystone correction and focus technology enable you to customize images according to your preferences and position your projector at your desired distance.

Full HD 1080p

Experience movies, TV shows, or gaming session on a nice 80" screen. The NeoPix 200's short-throw engine produces a massive picture from 2 meters away and produce a bright and colorful image in native Full HD 1080p in a dark room.
