S7887/35

Closer* shave, advanced skin protection with SkinIQ Technology

The Philips Series 7000 glides smoothly over your skin, while cutting each hair close - even on 3-day beards. Equipped with advanced SkinIQ technology, the shaver senses, adapts and guides on the correct motion, for better skin protection.

A close shave

- Engineered for precision and cutting efficiency
- Flexible heads follow your facial contours

A powerful shave

- Powerful performance in every pass

SkinIQ technology

- Adjusts to your beard for effortless shaving
- Guides you to an improved technique with fewer passes
- Enhanced shaving experience with app
- Reduces friction on skin to minimize irritation

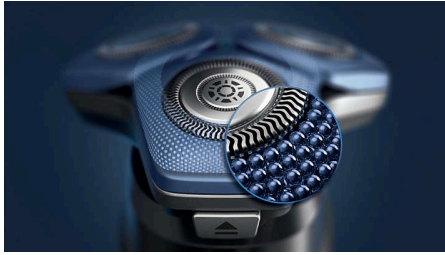

For a convenient shave

- Up to 60 minutes of cordless shaving when fully charged
- 1-hour charging time and 5-min quick charge

Sustainability

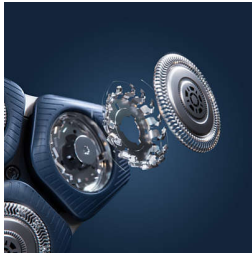

Highlights

Nano SkinGlide coating

A protective coating lies between the shaver heads and your skin. Made of up to 250.000 micro-tech beads per square centimeter, improves gliding on skin by up to 30%***, to minimize irritation.

SteelPrecision blades

With up to 90.000 cutting actions per minute, the SteelPrecision blades shave 17% closer*, cutting more hair per stroke. The 45 high-performance blades are self-sharpening and made in Europe.

Motion Control sensor

Motion-sensing technology tracks how you shave and guides you to a more efficient technique. After just three shaves, the majority of men achieved a better shaving technique for fewer passes***.

Personalization via app

Perfect your shave by pairing your shaver with the Philips GroomTribe app. Shave by shave, track the progress of your skin, personalize your shave and master your technique for a shave that's as close as it is kind to skin.

Power Adapt sensor

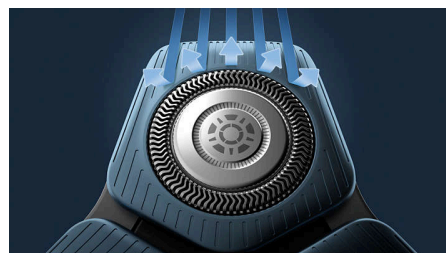

Dynamically adapts shaving power from the moment the shaver touches your face or head. It reads hair density 250x per second. Adjusts to your beard for effortless shaving.

360-D Flexing heads

Fully flexible heads turn 360° to follow the contours of your face and head. Experience optimal skin contact for a thorough and comfortable shave.

Hair-Guide Precision heads

The new shape of the shaving heads is engineered for precision. The surface is enhanced with hair guiding channels, designed to move hair into an effective cutting position.

One-touch open

Clean the shaver with ease. At the touch of a button, flip open the shaver head and rinse with water.

Wet & Dry

Adapt your shaving routine to your needs. With Wet & Dry, you can go for a comfortable dry shave or a refreshing wet shave. You can shave with gel or foam even under the shower.

Pop-up trimmer

Complete your look using the shaver's pop-up precision trimmer. Integrated into the shaver's body, it's the perfect way to maintain a mustache and trim sideburns.

USB-A charging

At Philips, we drive sustainability in all aspects of product creation. Our ambition is to reduce waste and minimize the number of USB adaptors we put in the market. Should you need an adapter, a suitable supply unit is available via: www.philips.com/support

1-hour charging time

Charge your shaver fully in just 1 hour with the powerful and energy efficient lithium-ion battery. In a hurry? Plug in your shaver for 5 minutes and get enough power for 1 full shave.

Shaver series 7000

Wet & Dry electric shaver

S7887/35

Highlights

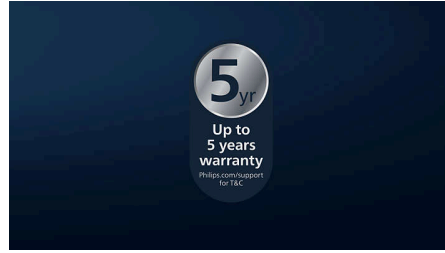

Sustainable shaving innovation

Our production facility for blades uses 100% renewable electricity, and our packaging is made with recyclable materials. All shavers come with an Eco passport.

60 minutes of cordless shaving

Shave cordlessly for up to 60 minutes after one full battery charge.

Up to 5-years warranty****

Our shavers are engineered for excellence and come with up to a 5-year extended warranty when you register your product. So, you can enjoy ultimate reliability and performance, shave after shave.
