## Baby Gift Set

Natural Response

1 Bottle

125 ml/4 oz

ultra air soother

SCD837

## Supports baby's individual drinking rhythm

A teat that works like a breast

The ideal gift set to feed and comfort your baby with a pop of colour. With the Natural Response Teat babies can drink at their own rhythm like on the breast, making it easy to combine breast and bottle feeding.

### Easy to combine breast and bottle feeding

- Natural latch on with breast-shaped teat
- Teat releases milk when baby actively drinks

### Other benefits

- Same products, new navigation
- No-drip nipple design prevents spills and lost milk
- Easy to hold even for little hands
- Choose the right teat flow for your baby
- Compatible across the Philips Avent range
- Natural Response Teats and Bottles are BPA free\*
- ultra air pacifier, for your baby's sensitive skin
- Simple to use, easy to clean and quick to assemble
- Be patient as your baby adjusts

### Vents air away from your baby's tummy

- Designed to reduce colic and discomfort

## Highlights

### Natural Response Teat

The Natural Response Teat works with your baby's natural feeding rhythm, making it easy to combine breast feeding and bottle feeding. The teat has a unique opening which only releases milk when the baby actively drinks. So when they pause to swallow and breathe, the milk pauses too.

### Natural latch on

The wide, soft and flexible teat is designed to mimic the shape and feel of a breast, helping the baby to latch on and feed comfortably.

### Anti-colic valve

Anti-colic valve is designed to keep air away from baby's tummy during feeding, to help reduce colic and discomfort.

### No-drip nipple

The nipple opening is designed to release milk only when the baby is feeding. So you can confidently avoid milk loss whether at home or on the go.

### Find the right teat flow

Every baby feeds differently and develops at their own pace. We've designed a range of flow rates so you can find the perfect one for your baby and personalise your bottle. All of the Natural Response Teats are made of soft silicone.

### Same products, new navigation

We have moved to a pace-based flow navigation system. Start with the teat that comes with the bottle. Try a lower flow if milk is leaking from your baby's mouth or your baby is gulping. Try a higher flow if your baby is playing with the teat

instead of drinking or seems frustrated. As we make this change, you may receive either style of pack.

### Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

### Easy to hold

The ergonomic bottle is easy to grip at any angle to give maximum comfort during feeding. Easy for your hands and tiny hands to hold.

### Be patient as your baby adjusts

Our new Natural Response Baby Bottles are different from free-flow baby bottles. Just like breastfeeding, it could take a few tries to get it right. That's perfectly natural.

# Highlights

### Compatible across the range

Mix and match our breast pump, bottle and cup parts and create the product that works for you, when you need it.

### BPA-free\*

The Philips Avent Natural Response bottles and teats are made of BPA free\* material. Plus, all the Natural Response teats are made out of soft silicone.

### ultra air soother

Soothe your baby with a pacifier that lets their skin breathe. The Philips Avent ultra air has extra large holes to keep skin dry. Its light weight shield is designed for maximum air flow.
