Powerful light for your ride

More power for your headlights

The Philips Ultinon Moto Rally provides an extra LED boost to shower country roads with light. It is designed to ensure your safety with a long and wide beam, and to face the challenges of tough road conditions for a long lifetime.

Extra rally boost for ultimate light

- Extra rally boost for ultimate brightness on dark roads

Cool white style with 6500K

- Up to 6,500 Kelvin color temperature for cool white light

Optimal electrical design (ACDC)

- Electrical compatibility with AC and DC bikes

Performance made to last

- Lifetime of up to 2,000 hours
- The durability that today's riders demand

Highlights

7.5 W extra rally boost

Riding your motorcycle on dark country roads, you need your headlights to be extra powerful. Delivering an outstanding long and wide beam, Philips Ultinon Moto Rally LED showers the road with cool white light for excellent visibility. Boost your headlight with 7.5W rally performance.

Up to 6,500 K cool white light

Philips Ultinon Moto Rally features a stylish color temperature of up to 6500 Kelvin for great eye comfort to make driving in the dark a safer, more pleasant experience.

Electrical compatibility

Built-in IC driver for wide coverage of 12V DC and 12V AC, making it a great choice for riders of the widest variety of motorcycles. Philips Ultinon Moto Rally is built robust so you will enjoy stable performance, without flickering, high voltage spikes or erratic switches.

Up to 2,000 hours' lifetime

You want bright, stylish motorcycle headlights but you don't want to keep replacing failed lamps. That's a major weakness of conventional headlights; the more powerful the light, the shorter its lifespan. At a higher light intensity level, LEDs last much longer, and Philips Ultinon Moto Rally headlights are built to last. Thanks to their effective heatsink design adapted to the high wattage, they last for up to 2,000 hours of operation.

Durability for today's riders

Philips Ultinon Moto Rally bulbs are guaranteed EMI compliant, conforming to automotive-industry standards on electromagnetic interference. Engineered to withstand the rigors of modern motoring life even up to vibration levels of 10G, they offer the durability that today's riders demand.

Specifications

Marketing specifications

Product highlight: High-power LED, ACDC

Expected Benefits: Powerful Lights

Product description

Application: High beam, High beam, Low beam, Low beam

Base: P15d-25-1

Designation: LED M5/T19 11163 UMR 12V 7.5/7.5W X1

Homologation ECE: NO

Range: Ultinon Moto Rally, Ultinon Moto Rally

Technical features: High power, electrical compatibility ACDC

Technology: LED

Type: LED-HL [~M5/T19]

Lifetime

Lifespan: 2000 hrs

Light characteristics

Lumens: 950/950 lm

Color temperature: 6500 K

Electrical characteristics

Wattage: 7.5/7.5 W

Voltage: 13.2 V

Ordering information

Order entry: 11163UMRX1

Ordering code: 80024630

Packaging Data

Packaging type: X1

EAN1: 6932080800246

EAN3: 6932080800253

Packed product information

Length: 5.5 cm

Width: 2.6 cm

Height: 7.5 cm
