Connectivity and quality

- Versatile connectivity
- LED light source

Flexible and powerful

- Powerful integrated sound system
- Designed for flexible installations

Bright Image

- Full HD resolution
- Performance for everyone

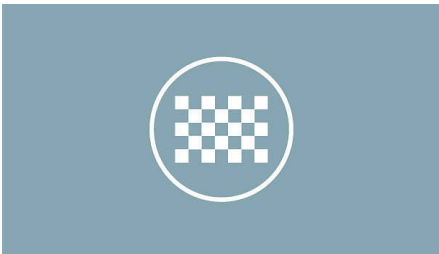

Highlights

Powerful integrated sound system

Immerse yourself in outstanding sound quality with the audio system, featuring two speakers for a truly exceptional audio experience. Need a bigger sound? The 3.5mm jack output is there to connect your earphones or external speakers.

Full HD resolution

Bring your entertainment to life with Full HD resolution - enjoy razor-sharp images, deep contrast, and crystal-clear text for an unforgettable viewing experience with 2600 Lumens.

Versatile connectivity

The ProPix 860 features dual HDMI inputs, ensuring seamless integration with legacy systems commonly found in educational institutions and established corporate environments. Also includes a RS232 ports for professional AV control systems, USB connectivity, and a 3.5mm audio output for external sound solutions.

Performance for everyone

The unique LED design results in sustainability and longevity compared to other technologies of the time. This innovative approach sets new standards for projection performance, making it a smartest choice for professional but also home entertainment.

LED light source

The high-quality LED light system delivers rich, vivid colors that last up to 30,000 hours. With an average use of 4 hours per day, this projector will last for up to 20 years! In addition, its energy consumption is much lower than that of a regular lamp projector, allowing you to enjoy a bigger screen and a fully immersive cinema experience, all from an environment friendly device.

Designed for flexible installations

Engineered for versatile installation scenarios, projecting impressive images from 70" up to 150" diagonal. With a throw ratio of 1.49:1, create a professional 120" display from just 4 metres distance. The lightweight design of 2.5 kg makes it easily portable, while support for multiple aspect ratios (4:3/16:9/16:10/Native) ensures compatibility with various content formats

Specifications

Technology

Display technology: DLP

Light source: LED

Brightness: up to 2600 lumens*

Contrast ratio: 1500:1
