Deeper reach between teeth

Superior cleaning in hard-to-clean areas*

With advanced tufting technology and extra-long bristles, i InterCare helps to remove more plaque between teeth than a manual toothbrush.

Innovative technology

- Automatically selects optimal mode for ultimate results**
- Philips Sonicare's advanced sonic technology

Designed to optimize performance

- Click-on design for simple brush head placement
- Tested to meet your oral health needs
- Always know when to replace. Always get an effective clean.

For exceptional plaque removal between teeth

- Remove plaque between teeth and in hard-to-clean areas
- Extra long bristles target hidden plaque

Highlights

Plaque removal between teeth

Click on our InterCare brush head for exceptional plaque removal between teeth. Extra-long bristles help remove more plaque in hard-to-reach spots and between teeth.

Extra-long bristles

The InterCare brush head features extra-long, densely-packed, high-quality bristles to target hidden plaque caught deep between your teeth.

BrushSync™ mode-pairing

You'll always get the best possible clean with our BrushSync™ mode-pairing feature**. The InterCare brush head syncs with your

BrushSync™ enabled Philips Sonicare toothbrush handle**, selecting the optimal brushing mode and intensity level for exceptional cleaning. All you need to do is start brushing.

Brush head replacements

Brush heads become less effective after 3 months of use, but with BrushSync™ you'll be reminded before this happens. Your smart toothbrush will track how often and how hard you brush, and will notify you when it's time for a replacement. Don't have a smart Philips Sonicare toothbrush? Just monitor your blue replacement bristles, and when they turn white you'll know it's time for a fresh brush head.

Easy to click-on

Your InterCare brush head fits perfectly with any Philips Sonicare toothbrush handle, except Philips One. Simply click on and off for easy replacement and cleaning.

The only true sonic technology

Philips Sonicare's advanced sonic technology pulses water between teeth, and its brush strokes break up plaque and sweep it away for an exceptional daily clean.

Brushing with peace of mind

All Philips Sonicare brush heads are safe and gentle on teeth and gums. During tests, each brush head is put through its paces to ensure durability and an exceptional performance every time you brush.
