Stylish, user-friendly design

- Stylish design for a premium brushing experience

Whiter teeth & improved oral health

- Up to 7x more plaque removal than a manual toothbrush
- Advanced Sonicare technology for a powerful yet gentle clean

Highlights

Removes up to 7x more plaque*

The W2 Optimal White brush head's densely-packed, high-quality bristles remove up to 7x more plaque than a manual toothbrush for your healthiest smile, every day.

Premium brushing experience

Our DiamondClean 9000 comes with a standout ombré design for a premium, ergonomic brushing experience that suits your style. Slim, compact travel case in a complementary color goes anywhere life takes you.

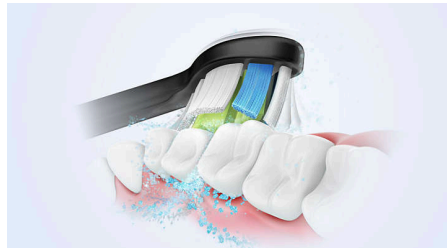

BrushSync automatic pairing

Smart brush heads ensure you're using the right mode and intensity for the best possible clean. When you are using the W2 Optimal White

brush head, your DiamondClean 9000's BrushSync technology will automatically sync your brush head with the White+ mode to help whiten your teeth.

Advanced Sonicare technology

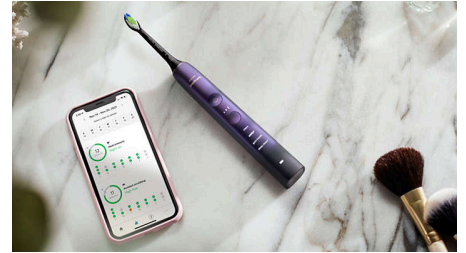

Philips Sonicare's advanced sonic technology pulses water between teeth, and its brush strokes break up plaque and sweep it away for an exceptional daily clean.

4 modes / 3 intensities

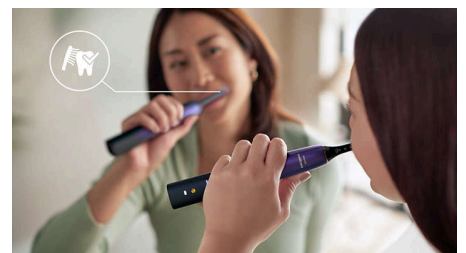

Choose from 4 brushing modes: Clean for exceptional everyday cleaning, White+ to brighten your smile, Gum Health for a gentle yet effective clean, and Deep Clean+ for an invigorating deep clean. Three intensity settings from Low to High let you boost performance or care for sensitive gums.

Sonicare app

The DiamondClean 9000 gives you the guidance you need to improve and maintain healthy brushing habits in between dentist checkups. Built-in smart sensors let you know when you're using too much pressure, and by connecting your brushing experience to the Sonicare app, a personalized Progress Report helps you stay on track, to see how much you've improved over time.

Built-in pressure sensor

You might not notice if you're brushing too hard, but your DiamondClean 9000 will. If you need to ease up, the toothbrush will make a pulsing sound. It's a heads up to let your brush head do the work.
