**Note for Volkswagen T5:** some models were not fitted with H4 but with H7 halogen bulbs at the factory despite identical headlight approval numbers. Before purchasing the H4 LED, please check the installed halogen bulb type directly. The approval of the Philips Ultinon Pro6000 H4 LED is only valid for the installed H4 lamp type.

Legal note: you are responsible for compliance with all applicable legal requirements. The Philips Ultinon Pro6000 range is type-approved for certain vehicle models only. To check if your vehicle is covered and the procedure in force in your country please visit: [philips.com/roadlegalLED](https://philips.com/roadlegalLED).

<sup>1)</sup> Note W5W-LED: The interior lighting of the vehicle, unlike the exterior light functions, is not subject to any legal restrictions regarding vehicle model or light function. Here, the W5W-LED can be used freely, wherever applicable, as a replacement light source.

<sup>2)</sup> The year of construction is not relevant for approval and is for guidance only.

\* corresponds to end of production.

<sup>3)</sup> The specified High beam index  $I'_{\text{H}}$  with H1-LED, H4-LED or H7-LED differs from the specification on the headlamp. The permissible sum of the main beam characteristics of all main beam headlamps must not exceed 100. Reference mark  $I'_{\text{H}}$  with H1-LED, H4-LED or H7-LED for the main beam of each model is as below.

<sup>4)</sup> In the event of an error message, the optional CANbus must be used.

<sup>5)</sup> Vehicles (SO.KFZ Wohnmobil and other classes / body types) are also approved whose headlights correspond to the listed UN(ECE) type approval and have received a multi-stage approval on the basis of the named basic vehicle.

<sup>6)</sup> The road approval of the Philips Ultinon Pro6000 LED lamp is only valid if installed where required with Philips original accessories. Please check the compatibility list to see if additional accessories are required for your vehicle.

<sup>7)</sup> For vehicle models with faulty cornering light function, the use of the optional CANbus is required.
