- 30 mm retractable bristle brush for defined waves
- 38 mm ThermoBrush for smooth styles and waves
- 4 x more ionic care\*
- Narrow concentrator for focused airflow
- Paddle straightening brush for naturally straight look
- Volumiser for more volume at the roots
- 5 attachments

### Less Hair Damage

- Less overheating with Even Heat Distribution technology
- ThermoProtect temperature setting
- Tourmaline ceramic coating\*\* for more care

# Highlights

## Even Heat Distribution

The Even Heat Distribution technology provides maximum protection for your hair from overheating and thus helps to keep it looking healthy and shiny.

## 4 x more ionic care\*

This airstyler gives your hair instant care with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

## Variety of styles and volume

This Air Styler features 5 attachments to create different styles - from a naturally straight look, to defined waves and volume at the roots.

## Tourmaline ceramic coating\*\*

Tourmaline ceramic coating on the paddle brush reinforces the anti-static effect of ionic conditioning. The rest of the brushes have a ceramic coating to prevent your hair from being overheated.

## ThermoProtect temperature

The ThermoProtect temperature setting provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results while caring for your hair.

## Three flexible settings

The speed and heat required can be easily adjusted to create the perfect result. Three flexible settings ensure precise and tailored styling.

## Cool air setting

The Cool air setting uses low heat to gently dry your hair. It works especially well with fine, dry or damaged hair.

## Paddle straightening brush

The paddle-shaped straightening brush is designed to help you create a naturally straight look in one go.

## 38 mm ThermoBrush

The ThermoBrush has an extra-wide diameter of 38 mm. The width of the barrel makes it the perfect styling tool for creating smooth styles and waves.

## Retractable bristle brush

The 30 mm brush with retractable bristles is designed for easy styling. Turn the tip of the brush and slide it out for defined waves.

## Narrow concentrator

Use the narrow concentrator for focused airflow for precise styling or touch-ups.

## Volumiser

Create volume at the roots with a specially designed volumiser attachment.

# Specifications

## Attachments

**Nozzle:** For a focused airflow

**38-mm Thermo brush:** For smooth styles and waves

**Retractable bristle brush:** For defined waves
